The subject is located near to high way, school, park, major road and a commercially active region, this will not have any impact on the subject's marketability as similar locations comparable were used in this report. Within 1 mile there were limited comparable available supporting subject market conditions. Hence I was forced to use comparable exceeding in the proximity up to 2 miles and bed/bath count. The comparable CS1 and CL2 were selected as the best available comparable. Subject details are taken from the tax records.</p>
