<b>Comments Regarding Pricing Strategy</b>		
<p>The subject is a SFR 1 story, containing 1456sqft, 4bed/2bath, which was built in 1968 and is located near highway, park, worship, school and retail stores and will not affect the subject. Proximity has been extended to provide the most accurate and similar comps in the subject market. The difference in bed count due to the neighborhood area is hard to find comparable that is similar to the subject bed count. Due to lack of comparable in the subject's same side it was necessary to exceed major boundaries such as major roads, highways, freeways, etc and will not affect the market value. In delivering final valuation, most weight has been placed on CS1 and CL2 as they are most similar to subject condition and overall structure.</p>
