Comments Regarding Pricing Strategy

The subject should be sold in as- is condition. The market conditions are currently stable. The value as of today is \$ 323000. The typical marketing time is 120 days. Comps chosen were more appropriate than closer comps available and were adjusted for in regards to any discrepancies to subject. The sales Comparison Approach was used. This approach uses the values indicated by recent sales and listings of comparable properties in the marketplace as guidelines for determining a fair market value of the subject property. Very few similar condition comps available in subject's neighborhood, So I have used some good condition comps in this report and all the necessary adjustment are made.
