Comments Regarding Pricing Strategy		
<p>Within 1 mile, 30% GLA, 20+/- year built and 12 months sold date, the majority of the comparables available from the subject immediate neighborhood were different in sub-style. In order to take proximate comparables, it was necessary to exceed style, condition, year built, the lot size for active and sold comps, and exceed proximity up to 0.8 miles. The GLA is not bracketed within the proximity for sold comps. The best available comparables are used in the report. In delivering the final valuation CS1 and LC2 are the best comparables. Based on exterior observation, the subject property appears to be in average condition and not in need of immediate repair. As long as the subject is priced within the most recent values of the subject's comps there should not be a problem with resale. Located in an established residential neighborhood, with schools, shopping, restaurants, park, worship area, medical facilities, and public transportation are within close proximity. The details were taken as per the tax record. This property is located in a gated or guarded community. Access was not granted.</p>
