Comments Regarding Pricing Strategy

Subject is a SFR style property built in 1977, has 1132 square feet GLA and is in average condition. Within 1 mile, GLA +/- 20% sqft, lot size 30% +/- sq ft, age 20% +/- years and 3 months in time, there were limited comparable available bracketing subject attributes. Therefore it was necessary to exceed style guidelines. As there were limited active comps available in 1 mile, it was necessary to exceed proximity upto 2 miles and to exceed GLA upto 30% +/- sq ft. Due to limited comps in the area, active comps were used despite not bracketing the GLA as they are still considered to be reliable comparables. Necessary adjustments has been provided for the variance. The comps used in this report support the market value of the subject. The subject is located near highway, park, worship places and commercial buildings. Due to limited active comps, L2 was taken from the other side of highway. However this will not affect subject value and marketability. In delivering final valuation, the most weight has been placed on CS3 and LC1, as they are most similar to subject condition, and overall structure. Subject attributes are from Tax record.
