Comments Regarding Pricing Strategy		
I arrived at this price conclusion based on the similarity of the comparable, the influence of the neighborhood, the condition of the subject property, and other marketing factors. S1 and L1 were given the most weight as they both share the most similar characteristics to the subject. The properties used are the best possible currently available comps within 0.99 miles. Recommended market timing of 90-120 days to reach the highest sale price for this property. Any/all variations in the comps were taken into consideration when determining this price and it reflects my complete analysis.
