#### **Comments Regarding Pricing Strategy**

The MLS was searched for comparables with the following criteria: GLA range of 2058 to 3086 square feet, within 1 mile radius, 1963 to 2003 year built range, and 6 months' sale time for sold comps. It was necessary to expand past 1 mile to find comparables that support the subject's GLA. 2 of the 3 sold comparables chosen were sold within 90 days of the report date. The comparables that were closest in age, style, location and room count were chosen for this report. The age tolerance for comparables had to be expanded in order to locate properties that supported the subject GLA and attributes. Due to limited comps in the area, active comps were used despite not bracketing the GLA and lot size as they are still considered to be reliable comparable. Subject is located in a residential neighborhood with water bodies and commercial nearby. In delivering final valuation, the most weight has been placed on CS2 and LC2, as they are most similar to subject condition and overall structure. Subject attributes are taken from the tax record.
