Comments Regarding Pricing Strategy		
<p>Sales considered had a sale date within the last 12 months. To locate comparables it was necessary to exceed proximity up to 2 miles, condition, bed count and GLA. Used sales over 3 months old due to the lack of more recent sales from the subject's immediate area. Price range was over 25%in difference due to the neighbourhood area hard to find comparable that is similar to subject in condition and criteria. Proximity parameters were exceeded and search was extended up to 2 miles as there were limited comparables available within 1 mile . Subject is located near high way, water bodies, school, worship place and commercial buildings. Due to limited comparable from same location, it was necessary to use comparables from across the highway. However, this won't affect the market value. In delivering final valuation, most weight has been placed on CS2 and LC1, as they are most similar to subject condition and overall structure. Subject attributes are from Tax record.</p>
