Comments Regarding Pricing Strategy

The market was slow for comps similar to the subject's style and condition within the immediate neighborhood. Due to the lack of available comps, I went back 6 months, out in distance 5 blocks, and even with relaxing gla search criteria I was unable to find any comps which fit the condition requirements. Within 1 miles and back 6 months I found 10 comps of which I could only use 6 due to condition factors. The comps used are the best possible currently available comps within 5 blocks and the adjustments are sufficient for this area to account for the differences in the subject and comparables.
