Comments Regarding Pricing Strategy		
<p>Comparison analysis was done by collecting market data, selecting the most appropriate comparable properties, verifying market data, applying appropriate adjustments, and reconciling the various adjusted indicators of value into a value estimate. Market prices are increasing. Low- interest rates, low inventory, and increased demand are driving prices upward. The average marketing time is 60 days. All comps were the closest possible to the subject in lot size, sq ft., and age, no better sale and active comps were found; therefore I include comps over 1 mile far from the subject property with inferior and superior features. Comps utilized in this report has gone extensive review and therefore the best available comps in the subject market area. The subject remains strongly bracketed with the comps provided despite the differences in characteristics.</p>		

Clear Capital Quality Assurance Comments Addendum
