## Marketing Strategy

	As Is Price	Repaired Price
<b>Suggested List Price</b>	\$325,500	\$325,500
<b>Sales Price</b>	\$310,000	\$310,000
<b>30 Day Price</b>	\$285,200	--
<b>Comments Regarding Pricing Strategy</b>		
<p>The value as of today is \$310000, with typical marketing time at 90 days. The subject property is located in a neighborhood with easy access to the highway. Most yards and home exteriors appear to be in good order with only minor maintenance neglect. The area has above average market demand. The neighborhood has a shortage of homes on the market as there are more homes which have sold than listed in the past 6 months. Naturally, this shortage has enabled prices to rise and this trend is expected to continue over the next 6 months. The subject was strategically priced mid-market because all homes were from the same/similar subdivisions, and were of similar GLA, age, style, and lot utility. No extraordinary characteristics were noted to price low or high. Values are based on most recently closed sales similar to subject and currently listed properties in direct competition with subject property. GLA criteria was expanded due to having few similar comparables in the area that were within 20% variance of the subject property. Year built criteria was expanded due to having few similar comparables in the area that were within 10 years of the subject property. Due to limited comparables it is necessary to include those properties that may exceed the lot size variance. The comps however are valuable and bracket the subject well in terms of distance, condition, size and age. Style criteria was expanded due to the area having an evenly mixed assortment of home styles.</p>		

### Clear Capital Quality Assurance Comments Addendum
