Comments Regarding Pricing Strategy		
<p>The subject is average condition and no repairs noted. As long as the subject is priced within the market value of the most recent similar comps within the subject property's area there should not be a problem with resale. Within 1 mile, 20% GLA +/-, Year built 20 +/-, there were limited comparable available in the subject neighborhood. Therefore it was necessary to exceed closed date, style, condition and proximity exceeded up to 0.93 miles. Price range was over 25%in difference due to the neighbourhood area hard to find comparable that is similar to subject in condition and criteria. It was necessary to exceed the GLA variance guideline of 20% in an effort to better bracket the subject's feature set. Due to lack of comparable it was necessary to use comparable with variance in bath count for sold and active comps. In delivering the final valuation, most weight has been placed on CS2 and LC2 as they are most similar to the subject condition and overall structure. The subject property is located near to residential area, school, worship, main roads and other commercial. Due to limited comparables, some comparables were taken crossing the highway. This however, will not have effect on value and marketability. The details were taken as per tax record.</p>
