<b>Comments Regarding Pricing Strategy</b>		
<p>Local marketability and selling trends appear stable. Market consists of primarily arms-length transactions, with REO and Short Sale properties making up less than 5% of current market. They have not been included in this report as they are not an accurate representation of values in current market. Some, or all of the following exceptions may have occurred during this BPO because of limited Comparable Properties: I May have Utilized Comparable Sales or Listings which exceeded Age, Size, or Standardized Distance Parameters. *In spite of the Exceptions made, the Comparables used are like kind Comps and reflect an accurate assessment of value for the Subject Property.</p>		

## Clear Capital Quality Assurance Comments Addendum

**Reviewer's** The broker's as-is conclusion reflects the market for the subject. Comps are within a reasonable distance, relatively current, and accurately reflect  
**Notes** the subject's defining characteristics. Thus, the as-is conclusion appears to be adequately supported.
