#### **Condition Comments**

Subject build offers composition roofing and established landscaping. The square footage and room counts are common for the build as well as the lot size. Minor repairs appropriate to age as well as normal wear and tear updating should be expected though a full interior inspection is needed. Improved properties are still common so some level of updating may be needed to meet average market standards. This report is completed assuming subject was built using standard builder grade materials with no assumed updating. Subject is located on a main roadway with commercial near by though not bordering.

Comments Regarding Pricing S	Comments Regarding Pricing Strategy				

#### Comments Regarding Pricing Strategy

Adjustments to the comps have been made, where necessary, to bring the comps as close to subject as possible for accurate pricing. The most weight has been placed on sold comp 1 which is most similar in appeal and condition. Subject is located in a populated area that can be marketed to most average home buyers. Subject list price should be competitive with the available list comps for maximum exposure with pricing emphasis placed on the pending list comps. 90 day marketing times are uncommon in this area so an increased list price above available list comps would be needed if 90+ day marketing time is the goal. Value is based on exterior only and the assumption the interior is in average condition. Any discrepancies in this assumption could affect the suggested value either way.
