Comments Regarding Pricing Strategy		
<p>Search expanded to include the whole very large market area in order to find best comps for subject & to try & bracket subject features, including pool. Every effort made to find/use comps with as close proximity as possible. In this case search was expanded up to 3 miles to try & find comps with pools. Most of the comps are within 1.5 miles of subject. Subject age is not bracketed but most homes of this size are much older than subject, the best available comps are used. Subject GLA is not bracketed, again most homes of this age are much larger. The best available comps are used. One of the sold comps is within 12 SF of subject. The newer age of subject, location, pool feature do support a value at the higher end of the value range currently. Indicated value is a below market value.</p>
