Comments Regarding Pricing Strategy		
<p>The subject is an SFR with 3 beds and 2.5 bath in average condition. Property is located near a busy street and commercial centers. Comparable shares values defining qualities with the subject in regard to age, GLA, location and condition. So the subject location characteristics doesn't affect its marketability. It was necessary to exceed the threshold for GLA variance guideline of 15%, lot size variance guideline of 25%, bed/bath count, sub style variance in an effort to use the best available comparable from within the subject's market area. It was necessary to use comparables with superior condition (CS3) due to limited activity in the subject's area. In order to include comparable to reinforce the subject's GLA and other attributes, the sold comparable search was broadened to 12 months time. In delivering final valuation, most weight has been placed on CS2 and CL2 as they are most similar to subject condition and overall structure.</p>
