Comments Regarding Pricing Strategy		
<p>The subject was strategically priced mid-market because all homes were from the same/similar subdivisions, and were of similar GLA, age, style, and lot utility. No extraordinary characteristics were noted to price low or high. Values are based on most recently closed sales similar to subject and currently listed properties in direct competition with subject property. Home was priced at mid-value since there are no extraordinary characteristics that would value the subject lower or higher. Due to limited available market data for similar properties in the subject's immediate neighborhood, it was needed to expand proximity to acquire comps. It was also needed to use comps that vary in GLA, lot size, year built and room count. The properties used are the best possible currently available comps within 2 miles. The adjustments are sufficient for this area to account for the differences in the comparables to accurately reflect the current market value of the subject. "</p>		

Clear Capital Quality Assurance Comments Addendum

Reviewer's Notes The broker's as-is conclusion reflects the market for the subject. Comps are within a reasonable distance, relatively current, and accurately reflect the subject's defining characteristics. Thus, the as-is conclusion appears to be adequately supported.
