Comments Regarding Pricing Strategy		
<p>The values were determined by weighting the sold comparables using the following weights: S1: 20%, S2: 60% & S3: 20%. The active listings were not weighted in the determination of the subject's fair market value. There is an under-supply of comparables listings in the local market. As a result, the broker had to expand on some guidelines to find sufficient comps for this report. The broker could not find any active/pending comparables with a larger GLA similar enough to the subject property to use in this report.</p>		

Clear Capital Quality Assurance Comments Addendum

Reviewer's Notes The broker's as-is conclusion reflects the market for the subject. Comps are within a reasonable distance, relatively current, and accurately reflect the subject's defining characteristics. Thus, the as-is conclusion appears to be adequately supported.
