<b>Comments Regarding Pricing Strategy</b>		
<p>As per active MLS, subject is in good condition. Values are based on most recently closed sales similar to subject and currently listed properties in direct competition with subject property. I have searched a distance up to 0.5 mile GLA +/-20% similar lot size up to 3 months back. There were limited comparables available. Therefore I had to exceed guideline parameters and search up to 3 mile and back 12 Months. It was necessary to exceed the lot size, year built, pool and bed count in an effort to use the best available comparable from within the subject's market area. Used sales over 3 months old due to the lack of more recent sales from the subject's immediate area. Price range was over 20%in difference due to the neighbourhood area hard to find comparable that is similar to subject in condition and criteria. The value and marketability will not be affected with the subject being located near park, RR track, golf course, school, worship place, water bodies and commercial buildings. Comparables used in this report are from same location and neighborhood. In delivering final valuation, most weight has been placed on CS1 and LC2, as they are most similar to subject condition and overall structure. Subject attributes are from Tax record..</p>
