Page 3 of 6

This report form is designed to report an appraisal of a one-unit property or a one-unit property with an accessory unit; including a unit in a planned unit development (PUD). This report form is not designed to report an appraisal of a manufactured home or a unit in a condominium or cooperative project.

This appraisal report is subject to the following scope of work, intended use, intended user, definition of market value, statement of assumptions and limiting conditions, and certifications. Modifications, additions, or deletions to the intended user, intended user, definition of market value, or assumptions and limiting conditions are not permitted. The appraiser may expand the scope of work to include any additional research or analysis necessary based on the complexity of this appraisal assignment. Modifications or deletions to the certifications are also not permitted. However, additional certifications that do not constitute material alterations to this appraisal report, such as those required by law or those related to the appraiser's continuing education or membership in an appraisal organization, are permitted.

SCOPE OF WORK: The scope of work for this appraisal is defined by the complexity of this appraisal assignment and the reporting requirements of this appraisal report form, including the following definition of market value, statement of assumptions and limiting conditions, and certifications. The appraiser must, at a minimum: (1) perform a visual inspection of the exterior areas of the subject property from at least the street, (2) inspect the neighborhood, (3) inspect each of the comparable sales from at least the street, (4) research, verify, and analyze data from reliable public and/or private sources, and (5) report his or her analysis, opinions, and conclusions in this appraisal report.

The appraiser must be able to obtain adequate information about the physical characteristics (including, but not limited to, condition, room count, gross living area, etc.) of the subject property from the exterior-only inspection and reliable public and/or private sources to perform this appraisal. The appraiser should use the same type of data sources that he or she uses for comparable sales such as, but not limited to, multiple listing services, tax and assessment records, prior inspections, appraisal files, information provided by the property owner, etc.

INTENDED USE: The intended use of this appraisal report is for the lender/client to evaluate the property that is the subject of this appraisal for a mortgage finance transaction.

INTENDED USER: The intended user of this appraisal report is the lender/client.

DEFINITION OF MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he or she considers his or her own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U. S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale.

*Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgment.

STATEMENT OF ASSUMPTIONS AND LIMITING CONDITIONS: The appraiser's certification in this report is subject to the following assumptions and limiting conditions:

- 1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it, except for information that he or she became aware of during the research involved in performing this appraisal. The appraiser assumes that the title is good and marketable and will not render any opinions about the title.
- 2. The appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in this appraisal report whether any portion of the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.
- 3. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand, or as otherwise required by law.
- 4. The appraiser has noted in this appraisal report any adverse conditions (such as needed repairs, deterioration, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property or that he or she became aware of during the research involved in performing this appraisal. Unless otherwise stated in this appraisal report, the appraiser has no knowledge of any hidden or unapparent physical deficiencies or adverse conditions of the property (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) that would make the property less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, this appraisal report must not be considered as an environmental assessment of the property.
- 5. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that the completion, repairs, or alterations of the subject property will be performed in a professional manner.

Fannie Mae Form 2055 March 2005

APPRAISER'S CERTIFICATION: The Appraiser certifies and agrees that:

- 1. I have, at a minimum, developed and reported this appraisal in accordance with the scope of work requirements stated in this appraisal report.
- 2. I performed a visual inspection of the exterior areas of the subject property from at least the street. I reported the condition of the improvements in factual, specific terms. I identified and reported the physical deficiencies that could affect the livability, soundness, or structural integrity of the property.
- 3. I performed this appraisal in accordance with the requirements of the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.
- 4. I developed my opinion of the market value of the real property that is the subject of this report based on the sales comparison approach to value. I have adequate comparable market data to develop a reliable sales comparison approach for this appraisal assignment. I further certify that I considered the cost and income approaches to value but did not develop them, unless otherwise indicated in this report.
- 5. I researched, verified, analyzed, and reported on any current agreement for sale for the subject property, any offering for sale of the subject property in the twelve months prior to the effective date of this appraisal, and the prior sales of the subject property for a minimum of three years prior to the effective date of this appraisal, unless otherwise indicated in this report.
- 6. I researched, verified, analyzed, and reported on the prior sales of the comparable sales for a minimum of one year prior to the date of sale of the comparable sale, unless otherwise indicated in this report.
- 7. I selected and used comparable sales that are locationally, physically, and functionally the most similar to the subject property.
- 8. I have not used comparable sales that were the result of combining a land sale with the contract purchase price of a home that has been built or will be built on the land.
- 9. I have reported adjustments to the comparable sales that reflect the market's reaction to the differences between the subject property and the comparable sales.
- 10. I verified, from a disinterested source, all information in this report that was provided by parties who have a financial interest in the sale or financing of the subject property.
- 11. I have knowledge and experience in appraising this type of property in this market area.
- 12. I am aware of, and have access to, the necessary and appropriate public and private data sources, such as multiple listing services, tax assessment records, public land records and other such data sources for the area in which the property is located.
- 13. I obtained the information, estimates, and opinions furnished by other parties and expressed in this appraisal report from reliable sources that I believe to be true and correct.
- 14. I have taken into consideration the factors that have an impact on value with respect to the subject neighborhood, subject property, and the proximity of the subject property to adverse influences in the development of my opinion of market value. I have noted in this appraisal report any adverse conditions (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) observed during the inspection of the subject property or that I became aware of during the research involved in performing this appraisal. I have considered these adverse conditions in my analysis of the property value, and have reported on the effect of the conditions on the value and marketability of the subject property.
- 15. I have not knowingly withheld any significant information from this appraisal report and, to the best of my knowledge, all statements and information in this appraisal report are true and correct.
- 16. I stated in this appraisal report my own personal, unbiased, and professional analysis, opinions, and conclusions, which are subject only to the assumptions and limiting conditions in this appraisal report.
- 17. I have no present or prospective interest in the property that is the subject of this report, and I have no present or prospective personal interest or bias with respect to the participants in the transaction. I did not base, either partially or completely, my analysis and/or opinion of market value in this appraisal report on the race, color, religion, sex, age, marital status, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property or of the present owners or occupants of the properties in the vicinity of the subject property or on any other basis prohibited by law.
- 18. My employment and/or compensation for performing this appraisal or any future or anticipated appraisals was not conditioned on any agreement or understanding, written or otherwise, that I would report (or present analysis supporting) a predetermined specific value, a predetermined minimum value, a range or direction in value, a value that favors the cause of any party, or the attainment of a specific result or occurrence of a specific subsequent event (such as approval of a pending mortgage loan application).
- 19. I personally prepared all conclusions and opinions about the real estate that were set forth in this appraisal report. If I relied on significant real property appraisal assistance from any individual or individuals in the performance of this appraisal or the preparation of this appraisal report, I have named such individual(s) and disclosed the specific tasks performed in this appraisal report. I certify that any individual so named is qualified to perform the tasks. I have not authorized anyone to make a change to any item in this appraisal report; therefore, any change made to this appraisal is unauthorized and I will take no responsibility for it.

Freddie Mac Form 2055 March 2005

- 20. I identified the lender/client in this appraisal report who is the individual, organization, or agent for the organization that ordered and will receive this appraisal report.
- 21. The lender/client may disclose or distribute this appraisal report to: the borrower; another lender at the request of the borrower; the mortgagee or its successors and assigns; mortgage insurers; government sponsored enterprises; other secondary market participants; data collection or reporting services; professional appraisal organizations; any department, agency, or instrumentality of the United States; and any state, the District of Columbia, or other jurisdictions; without having to obtain the appraiser's or supervisory appraiser's (if applicable) consent. Such consent must be obtained before this appraisal report may be disclosed or distributed to any other party (including, but not limited to, the public through advertising, public relations, news, sales, or other media).
- 22. I am aware that any disclosure or distribution of this appraisal report by me or the lender/client may be subject to certain laws and regulations. Further, I am also subject to the provisions of the Uniform Standards of Professional Appraisal Practice that pertain to disclosure or distribution by me.
- 23. The borrower, another lender at the request of the borrower, the mortgagee or its successors and assigns, mortgage insurers, government sponsored enterprises, and other secondary market participants may rely on this appraisal report as part of any mortgage finance transaction that involves any one or more of these parties.
- 24. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.
- 25. Any intentional or negligent misrepresentation(s) contained in this appraisal report may result in civil liability and/or criminal penalties including, but not limited to, fine or imprisonment or both under the provisions of Title 18, United States Code, Section 1001, et seq., or similar state laws.

SUPERVISORY APPRAISER'S CERTIFICATION: The Supervisory Appraiser certifies and agrees that:

- 1. I directly supervised the appraiser for this appraisal assignment, have read the appraisal report, and agree with the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.
- 2. I accept full responsibility for the contents of this appraisal report including, but not limited to, the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.
- 3. The appraiser identified in this appraisal report is either a sub-contractor or an employee of the supervisory appraiser (or the appraisal firm), is qualified to perform this appraisal, and is acceptable to perform this appraisal under the applicable state law.
- 4. This appraisal report complies with the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.
- 5. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.

Supplemental Addendum

File No	32761643

				02:0:0:0
Borrower	Redwood Holdings LLC			
Property Address	1624 Trona Way			
City	San Jose	County Santa Clara	State CA	Zip Code 95125
Lender/Client	Wedgewood Inc			

Neighborhood Description

The subject's neighborhood is mainly comprised of detached single family residences with condo and PUD developments and multi-family properties intermixed. Commercial use properties are generally located along main arterial streets. Schools, shopping and all public services are located nearby. Highway 87 is located 1/2 mile to the east and Highway 17 is located 1.5 miles to the west of the subject's neighborhood with good access to employment centers of Silicon Valley.

Market Conditions

Market conditions are considered good with a steady supply of and strong demand for residential properties. Property values have been increasing over the past 12 months but have been relatively stable over the past 5 months, with many properties selling at or above list price. Conventional financing is prevalent and readily available at nominal rates. Seller may pay a portion of a buyer's non-recurring closing costs.

Highest and Best Use

The subject's site size, shape, and land-to-building ratio is adequate for the current improvements. The current structure on the subject site is financially feasible. The current structure on the subject site provides maximum return to the land. Based upon this assessment, it is the opinion of the appraiser that the subject is developed to its highest and best use. The highest and best use of the subject is projected based upon location, physical characteristics, past and proposed uses, and applicable zoning. The highest and best use of the subject "as if vacant" is for residential construction. It is the most applicable use, the previous or proposed use, and the most profitable use of the site. Surplus land, if any, may be held as investment or agriculture as an interim utility. The highest and best use of the subject "as improved" is its current use. The improvements have remaining economic life; are the probable future use; are the current and previous use and are legally permissible by zoning or probable future zoning; appear to be financially feasible; and are the maximally productive use available to the subject.

Site Comments

A certified plat was not provided to the appraiser. The site dimensions are estimated from public tax maps, recorded deeds or the appraiser's measurements. No adverse conditions are indicated by the site's size or shape.

The appraiser has not been informed, nor does the appraiser have any knowledge of the existence of any environmental or health impediment, which if known, could have a negative impact on the market value of the subject property. The valuation contained herein is not valid if any hazardous items are found in the subject property and not stated within the appraisal report, including but not limited to: termites, Urea Formaldehyde insulation, radon gas, asbestos products, and/or toxic waste contaminates. However, the appraiser is not qualified to identify such substances. The client is urged to retain the services of a professional expert in these fields.

Standard utility easements are present which do not adversely affect the site. No encroachments were noted.

Unless otherwise noted it is assumed that the subject conforms to the current zoning codes as recorded and taken from public zoning records.

It is noted that the subject may be proximate to outside factors, such as commercial use, schools, golf courses, houses of worship, non-residential use, marinas, airports, busy roads and highways, railroad tracks, as well as other external influences and uses not noted above.

These items have been noted where applicable, and were determined not to have appreciable adverse/positive effect on value or marketability, unless otherwise noted. Every effort is made to identify factors which will affect the subject property, though some factors may not be deemed relevant or proximate enough to have impact. If items noted or visible from aerial imagery have not been noted or discussed, the item in question was deemed not relevant to the subject or proximate enough to have an impact

The appraiser utilized flood maps, and GIS information as integrated by Alamode/Wintotal appraisal platform, Interflood data, and FEMA databases. Unless otherwise noted in the body of the report of the attached addendum, the subject property is considered by the appraiser to be zone D or X, which are not special flood hazard areas requiring flood zone information on the survey report. Should the lender client have questions or concerns about the subject and flood zones, a flood certification is recommended.

Additional Features

AMENDED SCOPE OF WORK AND LIMITING CONDITIONS TO THE FANNIE MAE/FREDDIE MAC PRE-PRINTED FORM. At the request of the intended user, an EXTERIOR-ONLY INSPECTION WAS COMPLETED ON THE SUBJECT PROPERTY regardless of the Scope of Work in the pre-printed form. The intended use and intended user has been amended as indicated in the addendum. A sketch is not provided since this is an Exterior-only Inspection report.

Information regarding the subject improvements is based on public records data. It is assumed that this information is accurate. Data for some fields is not provided (i.e., flooring materials, etc.) and these fields have been filled by the appraiser based on typical features found in homes in the subject's neighborhood. The actual materials may differ, but are not considered to have an impact on the value conclusion. Should it be determined that any of these assumptions are inaccurate and/or that they may have a value impact, the value conclusion could be impacted.

No Personal Property has been included in this appraisal unless otherwise noted.

Health and safety and deferred maintenance

Please note that any potential health and safety issues have been disclosed and this report made subject to necessary repairs. I am not a home inspector, electrician, plumber, HVAC expert, roofer, contractor, etc. However if something appeared out of the ordinary based on the interior inspection, an expert would be required to confirm potential issues are not health/safety issues.

health and safety concerns; None noted deferred maintenance/damages; None noted

Comments on Sales Comparison

The appraisers comparable search consists of 1,650 - 2,050 sf residences sold in the past 6 months located in the subject's

Supplemental Addendum

		Cappionical Madeilaani	1 110 1	10. 02701040	
Borrower	Redwood Holdings LLC				
Property Address	1624 Trona Way				
City	San Jose	County Santa Clara	State CA	Zip Code 95125	
Lender/Client	Wedgewood Inc				

File No. 32761643

neighborhood.

Gross living areas shown for the comparable sales are estimates based on information provided by MLS, Tax assessment data, Realtor's, buyers, sellers, appraiser's database, and/or actual measurement. Slight variations in size will have no effect on the estimate of value.

ADJUSTMENT METHOD:

All adjustment amounts are based on paired sales analysis and linear regression analysis.

SUMMARY OF SALES COMPARISON APPROACH:

Bedroom differences are not adjusted in the analysis and are factored into in the living area adjustments.

Age of the Improvement differences are not adjusted in the analysis and are factored into in the condition adjustments.

\$250.00 adjustment is used for GLA adjustment for a difference over 100 sf.

\$20.00 adjustment is used for the lot size difference over 1,000 sf.

Sales comparable 1 is a smaller home than the subject located on a similar sized lot with a similar usable area to that of the subject. Comp 1 is a similar aged home to the subject that has been well maintained throughout per MLS and is deemed similar in condition to the subject overall as a result.

Sales comparable 2 is a similar sized home to the subject located on a larger lot with a larger usable area to that of the subject. Comp 2 is a similar aged home to the subject that has not been updated per MLS and is deemed inferior in condition to the subject overall as a result and is adjusted by paired sales analysis.

Sales comparable 3 is a similar sized home to the subject located on a similar sized lot with a similar usable area to that of the subject. Comp 3 is a similar aged home to the subject that has been remodeled throughout per MLS and is deemed superior in condition to the subject overall as a result and is adjusted by paired sales analysis.

Sales comparable 4 is a similar sized home to the subject located on a similar sized lot with a similar usable area to that of the subject. Comp 4 is a similar aged home to the subject that has been remodeled throughout per MLS and is deemed superior in condition to the subject overall as a result and is adjusted by paired sales analysis.

Sales comparable 5 is a larger home than the subject located on a similar sized lot with a similar usable area to that of the subject. Comp 5 is a similar aged home to the subject that has not been updated per MLS and is deemed inferior in condition to the subject overall as a result and is adjusted by paired sales analysis.

The close of escrow dates for the sales comparables are as follows:

Comparable #1: 4/21/2022 Comparable #2: 2/11/2022 Comparable #3: 5/13/2022 Comparable #4: 4/11/2022 Comparable #5: 2/24/2022

Location

The comparables selected are considered the best available within the market area. All sales were considered typical of the market area with no location adjustments required. The comparables selected all share similar market influences, and due to its suburban location to major metropolitan areas of San Jose, all considered to be within a short commute to areas of employment. The impact of location is minimal to typical home buyers and the subject and comparables share similar marketability.

Addendum To Final Reconciliation

Comparable sales 1 - 3 are given greatest weight in the appraisal as the most similar and proximate sales to the subject that bracket the features of the subject property. Additional consideration is given to comps 4 and 5 as additional sales that bracket the features of the subject. The appraised value of the subject is consistent with the recent transfer value.

Predominant Value

The appraised value of the subject property is consistent with the predominant value of the typical neighborhood home.

Arms Length Transactions

At least 2 of the closed sales were verified through MLS as arms length transactions.

AMC Registration

Appraisal AMC# - California

ClearCapital.com, Inc. - California #1256

The appraiser is signing the report using the corporate address of the appraisal management company, Clario Appraisal Network, the appraisers employer. The appraiser is not based in the corporate office and is based in San Jose, CA. The subject is located within an approximate 20 mile radius from the appraisers home based office. Further, the appraiser has approximately 35 years experience appraising in the market, and specifically the zip code/market in question.

FIRE IMPACTED FEMA DISASTER ZONE

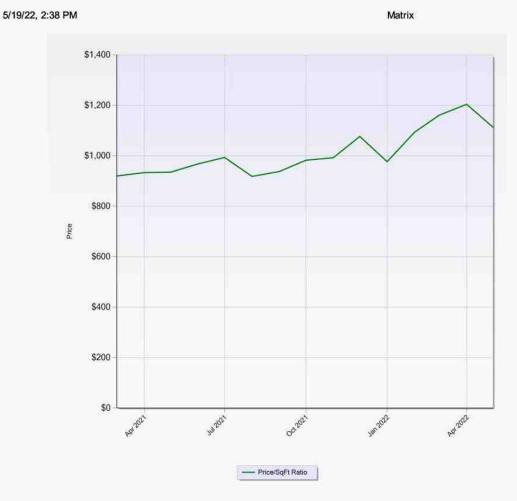

The subject property's zip code has been identified as a California Fire-Impacted FEMA disaster zip code. The Incident Period per FEMA is August 14, 2020 and continuing, affecting all of Santa Clara County. There has not been a wildfire within 20 miles of the subject property in this time period.

Comparables 1, 2, 3, 4 and 5 all sold and closed after the beginning of this time period.

No adverse impact on the value or marketability within the subject's market area is noted.

The subject property and subject's immediate area has NOT sustained any observable disaster related damage.

CERTIFICATE OF LIABILITY INSURANCE

DATE (MM/DD/YYYY) 10/11/2021

THIS CERTIFICATE IS ISSUED AS A MATTER OF INFORMATION ONLY AND CONFERS NO RIGHTS UPON THE CERTIFICATE HOLDER. THIS CERTIFICATE DOES NOT AFFIRMATIVELY OR NEGATIVELY AMEND, EXTEND OR ALTER THE COVERAGE AFFORDED BY THE POLICIES BELOW. THIS CERTIFICATE OF INSURANCE DOES NOT CONSTITUTE A CONTRACT BETWEEN THE ISSUING INSURER(S), AUTHORIZED REPRESENTATIVE OR PRODUCER, AND THE CERTIFICATE HOLDER.

IMPORTANT: If the certificate holder is an ADDITIONAL INSURED, the policy(ies) must have ADDITIONAL INSURED provisions or be endorsed. If SUBROGATION IS WAIVED, subject to the terms and conditions of the policy, certain policies may require an endorsement. A statement on this certificate does not confer rights to the certificate holder in lieu of such endorsement(s).
