Comments Regarding Pricing Strategy		
The recommended value of the subject property is based on the adjusted values of the sold comps, with the most weight given to sold comp 1 because it is the most similar to the subject. Due to a lack of house numbers, it was necessary to use the street sign as the address verification photo. The subject property was determined by neighboring properties and aerial photos.		

Clear Capital Quality Assurance Comments Addendum

Reviewer's Notes The broker's as-is conclusion reflects the market for the subject. Comps are within a reasonable distance, relatively current, and accurately reflect the subject's defining characteristics. Thus, the as-is conclusion appears to be adequately supported.
