	Describe the condition of the property and data source(s) (including apparent needed repairs, deterioration, renovations, remodeling, etc.).	C4; The exterior of the subject property appears to be well maintained with no needed repairs noted. The physical characteristics of the subject property employed in this analysis are based upon online research of the subject's improvements on Public Records Data and the recent listing of the subject property on local MLS (LD 04/2022). An extraordinary assumption is made regarding the condition of the subject's improvements. The subject property is presumed to be free of physical and functional defects, if this assumption is found to be false, the final opinion of market value may be affected.						
	Are there any apparent physical deficiencies or adverse conditions that affect the livability, soundness, or structural integrity of the property?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No						

There are no know physical deficiencies or adverse conditions that affect the livability, soundness, or structural integrity of the property. No functional obsolescence is expected.

Does the property generally conform to the neighborhood (functional utility, style, condition, use, construction, etc.)? Yes No If No, describe.

SALES COMPARISON APPROACH

I did did not research the sale or transfer history of the subject property and comparable sales. If not, explain

My research did did not reveal any prior sales or transfers of the subject property for the three years prior to the effective date of this appraisal.

Data Source(s) **MLS, Realist**

My research did did not reveal any prior sales or transfers of the comparable sales for the year prior to the date of sale of the comparable sale.

Data Source(s) **MLS, Realist**

Report the results of the research and analysis of the prior sale or transfer history of the subject property and comparable sales (report additional prior sales on page 3).

Analysis of prior sale or transfer history of the subject property and comparable sales The subject property transferred 4/20/2022 for \$1,500,000 as a market transaction per the MLS listing. There have been no other prior transfers of the subject property in the past 3 years noted. There have been no other prior transfers of the sales comparables in the past 12 months noted.

Summary of Sales Comparison Approach See attached addenda.

Indicated Value by Sales Comparison Approach \$ **1,550,000**

Indicated Value by: **Sales Comparison Approach \$ 1,550,000** **Cost Approach (if developed) \$ 0** **Income Approach (if developed) \$ 0**

The Sales Comparison approach was given greatest weight in the analysis in determining the final value estimate as it best represents the actions of typical buyers and sellers in the market. The Cost and Income approaches to value were considered but were not deemed applicable due to their lesser reliability in determining values in the subject's area.

This appraisal is made "as is", subject to completion per plans and specifications on the basis of a hypothetical condition that the improvements have been completed, subject to the following repairs or alterations on the basis of a hypothetical condition that the repairs or alterations have been completed, or subject to the following required inspection based on the extraordinary assumption that the condition or deficiency does not require alteration or repair:

Based on a visual inspection of the exterior areas of the subject property from at least the street, defined scope of work, statement of assumptions and limiting conditions, and appraiser's certification, my (our) opinion of the market value, as defined, of the real property that is the subject of this report is **\$ 1,550,000**, as of **06/02/2022**, which is the date of inspection and the effective date of this appraisal.

ADDITIONAL COMMENTS

Definitions:

CLIENT: the party or parties who engage, by employment or contract, an appraiser in a specific assignment. Comment: The client may be an individual, group, or entity, and may engage and communicate with the appraiser directly or through an agent.

EXTRAORDINARY ASSUMPTION: an assumption, directly related to a specific assignment, as of the effective date of the assignment results, which, if found to be false, could alter the appraiser's opinions or conclusions. Comment: Extraordinary assumptions presume as fact otherwise uncertain information about physical, legal, or economic characteristics of the subject property; or about conditions external to the property, such as market conditions or trends; or about the integrity of data used in an analysis.

HYPOTHETICAL CONDITION: a condition, directly related to a specific assignment, which is contrary to what is known by the appraiser to exist on the effective date of the assignment results, but is used for the purpose of analysis. Comment: Hypothetical conditions are contrary to known facts about physical, legal, or economic characteristics of the subject property; or about conditions external to the property, such as market conditions or trends; or about the integrity of data used in an analysis. Limiting Statements The appraiser is not a home inspector. This report should not be relied upon to disclose any conditions present in the subject property. The appraisal report does not guarantee that the property is free of defects. A professional home inspection is recommended.

CLARIFICATION OF INTENDED USE AND USERS: The Intended User of this appraisal report is the Lender/Client/HUD. The Intended Use of this appraisal report is for the lender/client to evaluate the property that is the subject of this appraisal for a mortgage finance transaction, home equity line of credit, or internal asset evaluation by the lender/client related to their specific use(s) cited on page 1. This report is not intended for any other uses. Additional Intended Use of this appraisal includes internal asset review and/or loan servicing (including default) by the client.

COMPETENCY PROVISION: The appraiser has the appropriate knowledge and experience to complete this assignment competently. The comments made in this addendum are intended to expand on what the appraiser feels are areas of the most concern to the reader in order to fully understand the appraisal report and methodology. The expanded narrative allows the appraiser to provide additional comments where sufficient space is not available on the appraisal form. The market has been thoroughly searched and the sales reported represent the best available sales that properly weigh the four major elements of comparison, i.e. location, date of sale, physical characteristics and condition of sale.

Fee Disclosure: The appraiser signing this report is a staff appraiser and is paid hourly opposed to being paid on a per assignment basis.

ANSI Declaration: A one-story detached single-family property with 1,581 above-grade finished square feet. In addition, the property includes a open concrete patio in the rear yard and a covered concrete porch in the front of the residence. Finished square footage calculations for this house were obtained from public records data only and may include unfinished areas.

COST APPROACH

COST APPROACH TO VALUE (not required by Fannie Mae)			
Provide adequate information for the lender/client to replicate the below cost figures and calculations.			
Support for the opinion of site value (summary of comparable land sales or other methods for estimating site value)		The Cost Approach was not considered applicable due to the inability to accurately calculate the extent of the physical depreciation of the subject property, poor availability of accurate construction costs within the subject's market, and the lack of relevant land sales of similar type sites. The site value is determined by extraction from recent developed sales in the subject's market area due to a lack of vacant sales data.

Exterior-Only Inspection Residential Appraisal Report

File # 32835213

This report form is designed to report an appraisal of a one-unit property or a one-unit property with an accessory unit; including a unit in a planned unit development (PUD). This report form is not designed to report an appraisal of a manufactured home or a unit in a condominium or cooperative project.

This appraisal report is subject to the following scope of work, intended use, intended user, definition of market value, statement of assumptions and limiting conditions, and certifications. Modifications, additions, or deletions to the intended use, intended user, definition of market value, or assumptions and limiting conditions are not permitted. The appraiser may expand the scope of work to include any additional research or analysis necessary based on the complexity of this appraisal assignment. Modifications or deletions to the certifications are also not permitted. However, additional certifications that do not constitute material alterations to this appraisal report, such as those required by law or those related to the appraiser's continuing education or membership in an appraisal organization, are permitted.

SCOPE OF WORK: The scope of work for this appraisal is defined by the complexity of this appraisal assignment and the reporting requirements of this appraisal report form, including the following definition of market value, statement of assumptions and limiting conditions, and certifications. The appraiser must, at a minimum: (1) perform a visual inspection of the exterior areas of the subject property from at least the street, (2) inspect the neighborhood, (3) inspect each of the comparable sales from at least the street, (4) research, verify, and analyze data from reliable public and/or private sources, and (5) report his or her analysis, opinions, and conclusions in this appraisal report.

The appraiser must be able to obtain adequate information about the physical characteristics (including, but not limited to, condition, room count, gross living area, etc.) of the subject property from the exterior-only inspection and reliable public and/or private sources to perform this appraisal. The appraiser should use the same type of data sources that he or she uses for comparable sales such as, but not limited to, multiple listing services, tax and assessment records, prior inspections, appraisal files, information provided by the property owner, etc.

INTENDED USE: The intended use of this appraisal report is for the lender/client to evaluate the property that is the subject of this appraisal for a mortgage finance transaction.

INTENDED USER: The intended user of this appraisal report is the lender/client.

DEFINITION OF MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he or she considers his or her own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U. S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale.

*Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgment.

STATEMENT OF ASSUMPTIONS AND LIMITING CONDITIONS: The appraiser's certification in this report is subject to the following assumptions and limiting conditions:

1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it, except for information that he or she became aware of during the research involved in performing this appraisal. The appraiser assumes that the title is good and marketable and will not render any opinions about the title.
2. The appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in this appraisal report whether any portion of the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.
3. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand, or as otherwise required by law.
4. The appraiser has noted in this appraisal report any adverse conditions (such as needed repairs, deterioration, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property or that he or she became aware of during the research involved in performing this appraisal. Unless otherwise stated in this appraisal report, the appraiser has no knowledge of any hidden or unapparent physical deficiencies or adverse conditions of the property (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) that would make the property less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, this appraisal report must not be considered as an environmental assessment of the property.
5. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that the completion, repairs, or alterations of the subject property will be performed in a professional manner.

APPRAISER'S CERTIFICATION: The Appraiser certifies and agrees that:

1. I have, at a minimum, developed and reported this appraisal in accordance with the scope of work requirements stated in this appraisal report.
2. I performed a visual inspection of the exterior areas of the subject property from at least the street. I reported the condition of the improvements in factual, specific terms. I identified and reported the physical deficiencies that could affect the livability, soundness, or structural integrity of the property.
3. I performed this appraisal in accordance with the requirements of the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.
4. I developed my opinion of the market value of the real property that is the subject of this report based on the sales comparison approach to value. I have adequate comparable market data to develop a reliable sales comparison approach for this appraisal assignment. I further certify that I considered the cost and income approaches to value but did not develop them, unless otherwise indicated in this report.
5. I researched, verified, analyzed, and reported on any current agreement for sale for the subject property, any offering for sale of the subject property in the twelve months prior to the effective date of this appraisal, and the prior sales of the subject property for a minimum of three years prior to the effective date of this appraisal, unless otherwise indicated in this report.
6. I researched, verified, analyzed, and reported on the prior sales of the comparable sales for a minimum of one year prior to the date of sale of the comparable sale, unless otherwise indicated in this report.
7. I selected and used comparable sales that are locationally, physically, and functionally the most similar to the subject property.
8. I have not used comparable sales that were the result of combining a land sale with the contract purchase price of a home that has been built or will be built on the land.
9. I have reported adjustments to the comparable sales that reflect the market's reaction to the differences between the subject property and the comparable sales.
10. I verified, from a disinterested source, all information in this report that was provided by parties who have a financial interest in the sale or financing of the subject property.
11. I have knowledge and experience in appraising this type of property in this market area.
12. I am aware of, and have access to, the necessary and appropriate public and private data sources, such as multiple listing services, tax assessment records, public land records and other such data sources for the area in which the property is located.
13. I obtained the information, estimates, and opinions furnished by other parties and expressed in this appraisal report from reliable sources that I believe to be true and correct.
14. I have taken into consideration the factors that have an impact on value with respect to the subject neighborhood, subject property, and the proximity of the subject property to adverse influences in the development of my opinion of market value. I have noted in this appraisal report any adverse conditions (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) observed during the inspection of the subject property or that I became aware of during the research involved in performing this appraisal. I have considered these adverse conditions in my analysis of the property value, and have reported on the effect of the conditions on the value and marketability of the subject property.
15. I have not knowingly withheld any significant information from this appraisal report and, to the best of my knowledge, all statements and information in this appraisal report are true and correct.
16. I stated in this appraisal report my own personal, unbiased, and professional analysis, opinions, and conclusions, which are subject only to the assumptions and limiting conditions in this appraisal report.
17. I have no present or prospective interest in the property that is the subject of this report, and I have no present or prospective personal interest or bias with respect to the participants in the transaction. I did not base, either partially or completely, my analysis and/or opinion of market value in this appraisal report on the race, color, religion, sex, age, marital status, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property or of the present owners or occupants of the properties in the vicinity of the subject property or on any other basis prohibited by law.
18. My employment and/or compensation for performing this appraisal or any future or anticipated appraisals was not conditioned on any agreement or understanding, written or otherwise, that I would report (or present analysis supporting) a predetermined specific value, a predetermined minimum value, a range or direction in value, a value that favors the cause of any party, or the attainment of a specific result or occurrence of a specific subsequent event (such as approval of a pending mortgage loan application).
19. I personally prepared all conclusions and opinions about the real estate that were set forth in this appraisal report. If I relied on significant real property appraisal assistance from any individual or individuals in the performance of this appraisal or the preparation of this appraisal report, I have named such individual(s) and disclosed the specific tasks performed in this appraisal report. I certify that any individual so named is qualified to perform the tasks. I have not authorized anyone to make a change to any item in this appraisal report; therefore, any change made to this appraisal is unauthorized and I will take no responsibility for it.

Supplemental Addendum

File No. 32835213

Borrower	Redwood Holdings LLC						
Property Address	1284 Pembridge Dr						
City	San Jose	County	Santa Clara	State	CA	Zip Code	95118
Lender/Client	Wedgewood Inc						

Neighborhood Description

The subject's neighborhood is mainly comprised of detached single family residences with condo and PUD developments and multi-family properties intermixed. Commercial use properties are generally located along main arterial streets. Schools, shopping and all public services are located nearby. Highway 85 is located 1/2 mile to the south of the subject's neighborhood with good access to employment centers of Silicon Valley.

Market Conditions

Market conditions are considered good with a steady supply of and strong demand for residential properties. Property values have been increasing over the prior 12 months but have stabilized in the past 4 months, with many properties selling at or above list price. Conventional financing is prevalent and readily available at nominal rates. Seller may pay a portion of a buyer's non-recurring closing costs.

Highest and Best Use

The subject's site size, shape, and land-to-building ratio is adequate for the current improvements. The current structure on the subject site is financially feasible. The current structure on the subject site provides maximum return to the land. Based upon this assessment, it is the opinion of the appraiser that the subject is developed to its highest and best use. The highest and best use of the subject is projected based upon location, physical characteristics, past and proposed uses, and applicable zoning. The highest and best use of the subject "as if vacant" is for residential construction. It is the most applicable use, the previous or proposed use, and the most profitable use of the site. Surplus land, if any, may be held as investment or agriculture as an interim utility. The highest and best use of the subject "as improved" is its current use. The improvements have remaining economic life; are the probable future use; are the current and previous use and are legally permissible by zoning or probable future zoning; appear to be financially feasible; and are the maximally productive use available to the subject.

Site Comments

A certified plat was not provided to the appraiser. The site dimensions are estimated from public tax maps, recorded deeds or the appraiser's measurements. No adverse conditions are indicated by the site's size or shape.

The appraiser has not been informed, nor does the appraiser have any knowledge of the existence of any environmental or health impediment, which if known, could have a negative impact on the market value of the subject property. The valuation contained herein is not valid if any hazardous items are found in the subject property and not stated within the appraisal report, including but not limited to: termites, Urea Formaldehyde insulation, radon gas, asbestos products, and/or toxic waste contaminants. However, the appraiser is not qualified to identify such substances. The client is urged to retain the services of a professional expert in these fields.

Standard utility easements are present which do not adversely affect the site. No encroachments were noted.

Unless otherwise noted it is assumed that the subject conforms to the current zoning codes as recorded and taken from public zoning records.

It is noted that the subject may be proximate to outside factors, such as commercial use, schools, golf courses, houses of worship, non-residential use, marinas, airports, busy roads and highways, railroad tracks, as well as other external influences and uses not noted above.

These items have been noted where applicable, and were determined not to have appreciable adverse/positive effect on value or marketability, unless otherwise noted. Every effort is made to identify factors which will affect the subject property, though some factors may not be deemed relevant or proximate enough to have impact. If items noted or visible from aerial imagery have not been noted or discussed, the item in question was deemed not relevant to the subject or proximate enough to have an impact.

The appraiser utilized flood maps, and GIS information as integrated by Alamo/Wintotal appraisal platform, Interflood data, and FEMA databases. Unless otherwise noted in the body of the report of the attached addendum, the subject property is considered by the appraiser to be zone D or X, which are not special flood hazard areas requiring flood zone information on the survey report. Should the lender client have questions or concerns about the subject and flood zones, a flood certification is recommended.

Additional Features

AMENDED SCOPE OF WORK AND LIMITING CONDITIONS TO THE FANNIE MAE/FREDDIE MAC PRE-PRINTED FORM. At the request of the intended user, an EXTERIOR-ONLY INSPECTION WAS COMPLETED ON THE SUBJECT PROPERTY regardless of the Scope of Work in the pre-printed form. The intended use and intended user has been amended as indicated in the addendum. A sketch is not provided since this is an Exterior-only Inspection report.

Information regarding the subject improvements is based on public records data. It is assumed that this information is accurate. Data for some fields is not provided (i.e., flooring materials, etc.) and these fields have been filled by the appraiser based on typical features found in homes in the subject's neighborhood. The actual materials may differ, but are not considered to have an impact on the value conclusion. Should it be determined that any of these assumptions are inaccurate and/or that they may have a value impact, the value conclusion could be impacted.

No Personal Property has been included in this appraisal unless otherwise noted.

Health and safety and deferred maintenance

Please note that any potential health and safety issues have been disclosed and this report made subject to necessary repairs. I am not a home inspector, electrician, plumber, HVAC expert, roofer, contractor, etc. However if something appeared out of the ordinary based on the interior inspection, an expert would be required to confirm potential issues are not health/safety issues.

health and safety concerns; None noted

deferred maintenance/damages; None noted

Comments on Sales Comparison

The appraisers comparable search consists of 1,400 - 1,800 sf residences sold in the past 6 months located in the subject's

neighborhood.

Comparable 3 is a dated sale that is adjusted for the changes in market values in the subject's neighborhood from the date of sale of the comp to the current market based on the changes in the 3 month rolling averages of the price per square foot of all residential sales in the subject's zip code over the past 12 months as well as paired sales analysis.

Gross living areas shown for the comparable sales are estimates based on information provided by MLS, Tax assessment data, Realtor's, buyers, sellers, appraiser's database, and/or actual measurement. Slight variations in size will have no effect on the estimate of value.

ADJUSTMENT METHOD:

All adjustment amounts are based on paired sales analysis and linear regression analysis.

SUMMARY OF SALES COMPARISON APPROACH:

Bedroom differences are not adjusted in the analysis and are factored into in the living area adjustments.

Bathroom differences are adjusted at \$5,000 per half bath

\$200.00 adjustment is used for GLA adjustment for a difference over 100 sf.

\$25.00 adjustment is used for Lot Area adjustment for a difference over 1,000 sf.

Sales comparable 1 is a similar sized home to the subject located on a larger lot with a larger usable area to that of the subject. Comp 1 is a similar aged home to the subject that has been remodeled throughout per MLS and is deemed superior in condition to the subject overall as a result and is adjusted by paired sales analysis.

Sales comparable 2 is a smaller home than the subject located on a similar sized lot with a similar usable area to that of the subject. Comp 2 is a similar aged home to the subject that has not been updated with deferred maintenance per MLS and is deemed inferior in condition to the subject overall as a result and is adjusted by paired sales analysis. Comp 2 is located on a residential through street with elevated traffic influence for an inferior appeal location to that of the subject that is adjusted by paired sales analysis.

Sales Comparable 3 is a similar sized home to the subject located on a smaller lot with a smaller usable area to that of the subject. Comp 3 is a similar aged home to the subject that has been well maintained and updated per MLS and is deemed similar in condition to the subject overall as a result.

Sales comparable 4 is a larger home than the subject located on a similar sized lot with a similar usable area to that of the subject. Comp 4 is a similar aged home to the subject that has been remodeled throughout per MLS and is deemed superior in condition to the subject overall as a result and is adjusted by paired sales analysis.

Sales comparable 5 is a larger home than the subject located on a similar sized lot with a similar usable area to that of the subject. Comp 5 is a similar aged home to the subject that has been remodeled throughout per MLS and is deemed superior in condition to the subject overall as a result and is adjusted by paired sales analysis.

The close of escrow dates for the sales comparables are as follows:

Comparable #1: 5/17/2022

Comparable #2: 5/20/2022

Comparable #3: 12/10/2021

Comparable #4: 5/19/2022

Comparable #5: 4/12/2022

Location

The comparables selected are considered the best available within the market area. All sales were considered typical of the market area with no location adjustments required. The comparables selected all share similar market influences, and due to its suburban location to major metropolitan areas of San Jose, all considered to be within a short commute to areas of employment. The impact of location is minimal to typical home buyers and the subject and comparables share similar marketability.

Addendum To Final Reconciliation

Comparable sales 1 - 3 are given greatest weight in the appraisal as the most similar and proximate sales to the subject that bracket the features of the subject property. Additional consideration is given to comps 4 & 5 as additional sales that bracket the features of the subject. The appraised value of the subject is consistent with the recent sales price of the property within 5% and does not necessarily represent an increase in market value of the property.

Predominant Value

The appraised value of the subject property is consistent with the predominant value of the typical neighborhood home.

Arms Length Transactions

At least 2 of the closed sales were verified through MLS as arms length transactions.

AMC Registration

Appraisal AMC# - California

The appraiser is signing the report using the corporate address of the appraisal management company, Clario Appraisal Network, the appraisers employer. The appraiser is not based in the corporate office and is based in San Jose, CA. The subject is located within an approximate 20 mile radius from the appraisers home based office. Further, the appraiser has approximately 35 years experience appraising in the market, and specifically the zip code/market in question.

FIRE IMPACTED FEMA DISASTER ZONE

The subject property's zip code has been identified as a California Fire-Impacted FEMA disaster zip code.

The Incident Period per FEMA is August 14, 2020 and continuing, affecting all of Santa Clara County.

There has not been a wildfire within 20 miles of the subject property in this time period.

Comparables 1, 2, 3, 4 and 5 all sold and closed after the beginning of this time period.

No adverse impact on the value or marketability within the subject's market area is noted.

Instructions: The appraiser must use the information required on this form as the basis for his/her conclusions, and must provide support for those conclusions, regarding housing trends and overall market conditions as reported in the Neighborhood section of the appraisal report form. The appraiser must fill in all the information to the extent it is available and reliable and must provide analysis as indicated below. If any required data is unavailable or is considered unreliable, the appraiser must provide an explanation. It is recognized that not all data sources will be able to provide data for the shaded areas below; if it is available, however, the appraiser must include the data in the analysis. If data sources provide the required information as an average instead of the median, the appraiser should report the available figure and identify it as an average. Sales and listings must be properties that compete with the subject property, determined by applying the criteria that would be used by a prospective buyer of the subject property. The appraiser must explain any anomalies in the data, such as seasonal markets, new construction, foreclosures, etc.

Explain in detail the seller concessions trends for the past 12 months (e.g., seller contributions increased from 3% to 5%, increasing use of buydowns, closing costs, condo fees, options, etc.). **Seller concessions in the subject area are typically in the form of seller paid closing costs. The marketplace accepts this practice and it does not appear to affect market value up to 3% of the purchase price. Typical concessions consists of the seller paying the buyer's non-recurring closing costs.**

Are foreclosure sales (REO sales) a factor in the market? Yes No If yes, explain (including the trends in listings and sales of foreclosed properties).

Based on trends in listings and sales data there are no REO or short sale properties in the neighborhood. The subject's neighborhood list price and sale price are in balance. The properties in the neighborhood are selling at or above the list price. The long term impact on property in the immediate subject location has been a trend of a stable market values.

Cite data sources for above information. **The data sources used in the completion of this report are from in-house files, local multiple listings services and Realist.**

Summarize the above information as support for your conclusions in the Neighborhood section of the appraisal report form. If you used any additional information, such as an analysis of pending sales and/or expired and withdrawn listings, to formulate your conclusions, provide both an explanation and support for your conclusions.

The subject's overall market trend has been for increasing market values over the past 12 months. The factors as stated in the appraisal report is a compilation of the stated statistics and an analysis of a general sampling of a larger area. In cases where insufficient representative data for sold or listed properties do not give a true comprehensive measure of the marketplace (as noted in this analysis) then the time is extended to determine an overall market trend on a monthly basis. MLS Statistics is used as a reference to the market trends as a better indicator of the market than the 1004MC form.

If the subject is a unit in a condominium or cooperative project, complete the following:

Project Name:

Subject Project Data	Prior 7-12 Months	Prior 4-6 Months	Current - 3 Months	Overall Trend		
Total # of Comparable Sales (Settled)				<input type="checkbox"/> Increasing	<input type="checkbox"/> Stable	<input type="checkbox"/> Declining
Absorption Rate (Total Sales/Months)				<input type="checkbox"/> Increasing	<input type="checkbox"/> Stable	<input type="checkbox"/> Declining

Months of Unit Supply (Total Listings/Ab.Rate)				<input type="checkbox"/> Declining	<input type="checkbox"/> Stable	<input type="checkbox"/> Increasing

Are foreclosure sales (REO sales) a factor in the project? Yes No If yes, indicate the number of REO listings and explain the trends in listings and sales of foreclosed properties.

Summarize the above trends and address the impact on the subject unit and project.
