Comments Regarding Pricing Strategy

I used the attached tax records for the subject's characteristics. In order to find similar comps I searched the MLS and tax records. I started with a .35 mile radius in the same zip code. I used a gla range of 783-1175 sq. ft. (20%) I used an age range of 51-94 years (30%) I looked at all one story homes that have sold in the last 6 months. The search produced 8 sales that ranged from 98,000-175,000. The comps at the high end of the range were renovated. I focused on sales that were in C4/ average condition and that had a similar annual tax rate as the subject. **There was a lack of non updated homes in the area** I used 2 homes in average condition and looked back 12 months to have a 3rd sale in C4 condition. **Proximity and condition were a high priority in comp selection** I used the same search to look for similar active listings. I found 4 listings in a .5 mile radius that ranged from 102,000-190,000. I used two list comps in C4 condition and had to expand the radius to have a 3rd list comp in average condition. I was not able to find a non renovated comp that was larger in size. I chose to use the most proximate comps and adjust as opposed to looking outside the area to have a home with a larger GLA. Value is a fair market value. Value is based on the subject being in C4/ average/ non updated condition. **There is a higher tier of values for renovated homes in the area.**
