Freddie Mac Form 2055 March 2005

This report form is designed to report an appraisal of a one-unit property or a one-unit property with an accessory unit; including a unit in a planned unit development (PUD). This report form is not designed to report an appraisal of a manufactured home or a unit in a condominium or cooperative project.

This appraisal report is subject to the following scope of work, intended use, intended user, definition of market value, statement of assumptions and limiting conditions, and certifications. Modifications, additions, or deletions to the intended use, intended user, definition of market value, or assumptions and limiting conditions are not permitted. The appraiser may expand the scope of work to include any additional research or analysis necessary based on the complexity of this appraisal assignment. Modifications or deletions to the certifications are also not permitted. However, additional certifications that do not constitute material alterations to this appraisal report, such as those required by law or those related to the appraiser's continuing education or membership in an appraisal organization, are permitted.

SCOPE OF WORK: The scope of work for this appraisal is defined by the complexity of this appraisal assignment and the reporting requirements of this appraisal report form, including the following definition of market value, statement of assumptions and limiting conditions, and certifications. The appraiser must, at a minimum: (1) perform a visual inspection of the exterior areas of the subject property from at least the street, (2) inspect the neighborhood, (3) inspect each of the comparable sales from at least the street, (4) research, verify, and analyze data from reliable public and/or private sources, and (5) report his or her analysis, opinions, and conclusions in this appraisal report.

The appraiser must be able to obtain adequate information about the physical characteristics (including, but not limited to, condition, room count, gross living area, etc.) of the subject property from the exterior-only inspection and reliable public and/or private sources to perform this appraisal. The appraiser should use the same type of data sources that he or she uses for comparable sales such as, but not limited to, multiple listing services, tax and assessment records, prior inspections, appraisal files, information provided by the property owner, etc.

**INTENDED USE:** The intended use of this appraisal report is for the lender/client to evaluate the property that is the subject of this appraisal for a mortgage finance transaction.

INTENDED USER: The intended user of this appraisal report is the lender/client.

**DEFINITION OF MARKET VALUE:** The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he or she considers his or her own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U. S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions\* granted by anyone associated with the sale.

\*Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgment.

**STATEMENT OF ASSUMPTIONS AND LIMITING CONDITIONS:** The appraiser's certification in this report is subject to the following assumptions and limiting conditions:

- 1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it, except for information that he or she became aware of during the research involved in performing this appraisal. The appraiser assumes that the title is good and marketable and will not render any opinions about the title.
- 2. The appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in this appraisal report whether any portion of the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.
- 3. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand, or as otherwise required by law.
- 4. The appraiser has noted in this appraisal report any adverse conditions (such as needed repairs, deterioration, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property or that he or she became aware of during the research involved in performing this appraisal. Unless otherwise stated in this appraisal report, the appraiser has no knowledge of any hidden or unapparent physical deficiencies or adverse conditions of the property (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) that would make the property less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, this appraisal report must not be considered as an environmental assessment of the property.
- 5. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that the completion, repairs, or alterations of the subject property will be performed in a professional manner.

Freddie Mac Form 2055 March 2005

## Exterior-Only Inspection Residential Appraisal Report File # 50010

#### APPRAISER'S CERTIFICATION: The Appraiser certifies and agrees that:

- 1. I have, at a minimum, developed and reported this appraisal in accordance with the scope of work requirements stated in this appraisal report.
- 2. I performed a visual inspection of the exterior areas of the subject property from at least the street. I reported the condition of the improvements in factual, specific terms. I identified and reported the physical deficiencies that could affect the livability, soundness, or structural integrity of the property.
- 3. I performed this appraisal in accordance with the requirements of the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.
- 4. I developed my opinion of the market value of the real property that is the subject of this report based on the sales comparison approach to value. I have adequate comparable market data to develop a reliable sales comparison approach for this appraisal assignment. I further certify that I considered the cost and income approaches to value but did not develop them, unless otherwise indicated in this report.
- 5. I researched, verified, analyzed, and reported on any current agreement for sale for the subject property, any offering for sale of the subject property in the twelve months prior to the effective date of this appraisal, and the prior sales of the subject property for a minimum of three years prior to the effective date of this appraisal, unless otherwise indicated in this report.
- 6. I researched, verified, analyzed, and reported on the prior sales of the comparable sales for a minimum of one year prior to the date of sale of the comparable sale, unless otherwise indicated in this report.
- 7. I selected and used comparable sales that are locationally, physically, and functionally the most similar to the subject property.
- 8. I have not used comparable sales that were the result of combining a land sale with the contract purchase price of a home that has been built or will be built on the land.
- 9. I have reported adjustments to the comparable sales that reflect the market's reaction to the differences between the subject property and the comparable sales.
- 10. I verified, from a disinterested source, all information in this report that was provided by parties who have a financial interest in the sale or financing of the subject property.
- 11. I have knowledge and experience in appraising this type of property in this market area.
- 12. I am aware of, and have access to, the necessary and appropriate public and private data sources, such as multiple listing services, tax assessment records, public land records and other such data sources for the area in which the property is located.
- 13. I obtained the information, estimates, and opinions furnished by other parties and expressed in this appraisal report from reliable sources that I believe to be true and correct.
- 14. I have taken into consideration the factors that have an impact on value with respect to the subject neighborhood, subject property, and the proximity of the subject property to adverse influences in the development of my opinion of market value. I have noted in this appraisal report any adverse conditions (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) observed during the inspection of the subject property or that I became aware of during the research involved in performing this appraisal. I have considered these adverse conditions in my analysis of the property value, and have reported on the effect of the conditions on the value and marketability of the subject property.
- 15. I have not knowingly withheld any significant information from this appraisal report and, to the best of my knowledge, all statements and information in this appraisal report are true and correct.
- 16. I stated in this appraisal report my own personal, unbiased, and professional analysis, opinions, and conclusions, which are subject only to the assumptions and limiting conditions in this appraisal report.
- 17. I have no present or prospective interest in the property that is the subject of this report, and I have no present or prospective personal interest or bias with respect to the participants in the transaction. I did not base, either partially or completely, my analysis and/or opinion of market value in this appraisal report on the race, color, religion, sex, age, marital status, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property or of the present owners or occupants of the properties in the vicinity of the subject property or on any other basis prohibited by law.
- 18. My employment and/or compensation for performing this appraisal or any future or anticipated appraisals was not conditioned on any agreement or understanding, written or otherwise, that I would report (or present analysis supporting) a predetermined specific value, a predetermined minimum value, a range or direction in value, a value that favors the cause of any party, or the attainment of a specific result or occurrence of a specific subsequent event (such as approval of a pending mortgage loan application).
- 19. I personally prepared all conclusions and opinions about the real estate that were set forth in this appraisal report. If I relied on significant real property appraisal assistance from any individual or individuals in the performance of this appraisal or the preparation of this appraisal report, I have named such individual(s) and disclosed the specific tasks performed in this appraisal report. I certify that any individual so named is qualified to perform the tasks. I have not authorized anyone to make a change to any item in this appraisal report; therefore, any change made to this appraisal is unauthorized and I will take no responsibility for it.

Freddie Mac Form 2055 March 2005

- 20. I identified the lender/client in this appraisal report who is the individual, organization, or agent for the organization that ordered and will receive this appraisal report.
- 21. The lender/client may disclose or distribute this appraisal report to: the borrower; another lender at the request of the borrower; the mortgagee or its successors and assigns; mortgage insurers; government sponsored enterprises; other secondary market participants; data collection or reporting services; professional appraisal organizations; any department, agency, or instrumentality of the United States; and any state, the District of Columbia, or other jurisdictions; without having to obtain the appraiser's or supervisory appraiser's (if applicable) consent. Such consent must be obtained before this appraisal report may be disclosed or distributed to any other party (including, but not limited to, the public through advertising, public relations, news, sales, or other media).
- 22. I am aware that any disclosure or distribution of this appraisal report by me or the lender/client may be subject to certain laws and regulations. Further, I am also subject to the provisions of the Uniform Standards of Professional Appraisal Practice that pertain to disclosure or distribution by me.
- 23. The borrower, another lender at the request of the borrower, the mortgagee or its successors and assigns, mortgage insurers, government sponsored enterprises, and other secondary market participants may rely on this appraisal report as part of any mortgage finance transaction that involves any one or more of these parties.
- 24. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.
- 25. Any intentional or negligent misrepresentation(s) contained in this appraisal report may result in civil liability and/or criminal penalties including, but not limited to, fine or imprisonment or both under the provisions of Title 18, United States Code, Section 1001, et seq., or similar state laws.

#### SUPERVISORY APPRAISER'S CERTIFICATION: The Supervisory Appraiser certifies and agrees that:

- 1. I directly supervised the appraiser for this appraisal assignment, have read the appraisal report, and agree with the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.
- 2. I accept full responsibility for the contents of this appraisal report including, but not limited to, the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.
- 3. The appraiser identified in this appraisal report is either a sub-contractor or an employee of the supervisory appraiser (or the appraisal firm), is qualified to perform this appraisal, and is acceptable to perform this appraisal under the applicable state law.
- 4. This appraisal report complies with the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.
- 5. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.

#### **Clear Capital:**

The agreed upon appraiser fee from Clear Capital was \$515.00.

The Clear Capital registration # was TX 2000100.

#### **Pending Sale:**

The engagement letter indicated that this report was to be prepared for "Servicing". Initial research indicated that the subject was an AMLS pending sale. Clear Capital was contacted via phone and the appraiser was instructed to complete the report as ordered.

The AMLS listing has been included. No photos, other than the listing page main photo were included in the listing. The listing did not contain text or photos that indicated current condition. The listing date was indicated as 05/17/2022 with 0 DOM.

The engagement letter indicates the borrower as Champery Real Estate 2015 LLC and TCAD and AMLS report the owner as Paula G. Cooke.

#### **PUD/HOA Fees:**

The PUD box has Not been indicated because mandatory HOA (Home Owners Association) fees were not reported.

#### **General Comments:**

The subject appraised value was noted to be near the predominant value of houses within the neighborhood. The neighborhood consists of houses of varying size, age and quality and the subject was conforming in all manner and not under or over built. The marketability of the subject was considered to be good.

All utilities were assumed to be on and the property was reported as vacant at the time of inspection.

The Other land use represents parkland, schools, and some as of yet undeveloped land. The overall breakdown of land use was typical of the general area. The other land use did not negatively impact the marketability of the subject.

No personal property was considered in this real property analysis.

#### Subject:

## **Conformity:**

The subject was typical of houses in the neighborhood in terms of age, design, quality and appeal.

#### **Assumed Condition:**

The home appeared to be in adequately maintained and overall average condition based on the inspection from the street. The roof, siding, paint, windows, all appeared to not be recent maintained or updated and no conditional issues were observable with them. The garage doors were wooden and appeared to be the original units.

The assumed condition was overall average with minimal updating and adequate maintenance based upon the exterior components that were observable.

#### Site:

No survey was provided and no site dimensions have been included. The source of the site area and the included plat was TCAD online records. The site market appeal was average for the area.

#### **Site Value to Overall Value Ratio:**

The reported site value exceeded 50% of overall value and the higher than typical value relationship was considered to be typical of truly similar properties in this mature, close in, and high market appeal neighborhood.

#### **Approaches To Value:**

**Cost Approach:** The cost approach was not developed as it's utilization was not necessary to develop a reliable value conclusion.

**Income Approach:** Properties in this market area, comparable to the subject, are not typically purchased for their

income producing capabilities and are typically owner occupied. Therefore, the Income Approach was not developed.

Sales Comparison: The Sales Comparison Approach was considered to be the most reliable indicator of value and was given the most consideration during the reconciliation process

#### **Sales Comparison Approach:**

#### Search Criteria:

The appraiser comparable search criteria was for all similar recent sales/listings that were between 1,200 and 1,900 sq ft GLA, located in the subject neighborhood within 1 mile of the subject, and marketed within the last 6 months. A search of AMLS records indicated limited similar potential comparables that met the criteria. The comparables utilized were considered the properties most similar to the subject property in terms of size, age, condition, and

Some of the comparables were located across neighborhood through streets that were not neighborhood or market area boundaries. Comparables 1 & 2 were located across through streets and both were located in the subject subdivision.

#### **Age/Condition:**

The comparables utilized range in age from +/- 34 to +/- 44 years old and the subject was +/- 40 years old. Properties in this area, and in this size and age range are most often purchased based on the overall condition with little, if any, emphasis on age. Adjustments for condition will typically account for the differences in age and no age adjustment was necessary.

The subject was assumed to be in overall average condition with adequate maintenance and minimal updating and and the comparables were reported in inferior and below average overall condition with deferred maintenance to superior and good overall condition with additional updating. The condition/updating of the subject and comparables was unique to each of the properties and the market reaction to the overall condition/updating varies between each property. Numerous AMLS photos were reviewed for each property in order to determine the overall condition as well as the type and extent of updating. The condition adjustment reflects the market reaction to the overall condition/updating.

#### Site:

The site sizes of the subject and the comparables were somewhat different and some of the site sizes varied from the subject site size by more than 10%. Size alone was not considered to be a major market appeal contributor in this area and site adjustments only consider size as a market appeal influence. Site adjustments reflect the market reaction to the size of the individual site when compared to the subject site size. The market reaction to the individual site sizes was similar and no adjustment was necessary.

#### **Concessions:**

Seller paid concessions that directly benefit the buyer have been adjusted for on a dollar per dollar basis. This reflects the market reaction to seller paid concessions in this market area as knowledgeable informed buyers are aware of their impact on the contract price when negotiating for concessions that directly impact the buyer the same as cash. When seller paid concessions were paid in an amount of less than \$1,000 no adjustment was applied as no market reaction was observed.

#### Porch/Patio:

The porch/patio improvements of the subject property and the comparables were somewhat different. Adjustments for the porches/patios take into account numerous characteristics including size, location, and number of improvements. As the contributory value of the improvements are considered similar, no adjustment was necessary.

#### **Adjustments:**

The adjustments have been assessed based on the market reaction to the individual improvements. If the improvements were noted to be different and no adjustment was made, the contributory value was considered similar.

#### **Time Adjustments:**

#### Supplemental Addendum

| Su                        | ppiementai Addendum | File N   | 0. 50010       |  |
|---------------------------|---------------------|----------|----------------|--|
| Champery Real Estate 2015 | LLC                 |          |                |  |
| 7902 Seminary Ridge Dr    |                     |          |                |  |
| Austin                    | County Travis       | State TX | 7ip Code 78745 |  |

Time adjustments have been applied that reflect the increased sales prices over the period. If no adjustment was applied market conditions were considered to be stable over the period. See the MC Addendum as well as the MC Graph.

#### **Guideline Adjustment %:**

Austin

Wedgewood Inc

Some of the adjustments approach or exceed the 10/15/25 percent that were previous and no longer in effect FNMA guidelines. Considering the limited number of truly similar comparables that were available, the adjustments are considered to be reasonable to arrive at a value estimate for the subject property.

#### **Bracketing:**

Borrower Property Address

Lender/Client

City

The subject GLA has not been upper end bracketed. The GLA of Comparable 4 was only 5 sq ft smaller and considered to be matching. The lack of bracketing had no impact on the credibility of the analysis.

#### **Reconciliation:**

Comparable #1 (8601 Huebinger Pass) was a very recent sale that was slightly smaller and in similar overall condition. The included photo indicates a new roof that was installed after closing. The interior condition was mostly original with adequate maintenance and minimal updating with older sheet vinyl flooring and original lighting. The overall condition was considered to have similar market appeal. The market appeal of the significantly larger site was similar.

Comparable #2 (2813 Goldbridge Dr) was a dated sale that was similar in terms of overall condition with adequate maintenance and minimal updating. The market appeal of the smaller site was similar.

Comparable #3 (9100 Cookwood Cv) was the most recent similar sale located and it was in significantly inferior overall condition. There was significant reported and observable deferred maintenance on the interior and exterior. There was evidence of water penetration on the interior that was assumed to be a roof issue, evidence of mechanical issues, widespread cosmetic issues, minimal to no updating, and lack of maintenance throughout. The condition adjustment reflects the market reaction to the inferior overall condition. It was noted that the sales price was +/- 5% over the list price and contracted with 3 DOM which indicates the strong market appeal of lower priced properties that are ready for comprehensive remodeling/updating in this market at this time. The market appeal of the significantly larger site was similar.

Comparable #4 (2302 Stone River Dr) was a recent sale that was in superior overall condition as a result of additional updating. The overall condition was adequately maintained with mostly original kitchen and bathrooms. There was updating that included stained concrete flooring, wooden accent walls, lighting & fans. This house sold for \$120,100 over list price and the high market appeal was conditionally related although major updating was not noted. The condition adjustment reflects the market reaction to the superior overall condition. This was considered to be one of the highest peak of the market sales and it did adjust higher as a result. The market appeal of the smaller site was similar.

#### **Final Reconciliation:**

All comparables utilized had significant similarities and some differences and all were considered to be good value indicators. Comparables 1 & 2 were considered to be the most similar to the subject and the best indicators of the subject value. These sales were given the most weight during final reconciliation. The remainder of the sales provided good support for the value conclusion herein.
