Comments Regarding Pricing Strategy		
<p>To maximize accuracy of initial valuation, it was vital to extend the time span of closed sales past the great 6 month window to discover comparable that required the least net adjustment. The subject is located near busy roads, school, worship places, commercial buildings and residential neighborhood which will not affect the subject marketability. Proximity parameter has transcended and search was boosted up to 5 miles as there were minimal comparable within 1 mile having GLA +/- 30 year built +/- 30 and 12 months back. Since there were limited comparable available within subject's market neighborhood, it was necessary to expand the market research beyond 10 years of subject year built, 20% gla tolerance and lot size guidelines. However, CS2 and LC1 held the most weight in the final analysis. As there were limited comparable available we are unable to bracket sold and listing comparable GLA, similar location comparable were used.</p>
