#### **Comments Regarding Pricing Strategy**

Due to the subject's small size and a lack of similar available comps, it was not possible to bracket the subject's GLA on the low side with active comps. I have used the best available comparable(s) with respect to relative distance, size, age, and property type, suggesting they are good measures of price for the subject. Further research to find similarly sized properties that could tighten the subject price returned no properties; suggesting the best and only available properties were used. Subject and comparable(s) were noted to be in a declining market due to the economic conditions. The comparable(s) appear to be reasonable substitutes for the subject, providing adequate support for the suggested list and sale prices. Subject sale price has been bracketed within the sold comps. This report is not intended to meet the Uniform Standards of Professional Appraisal Practice. This broker's price opinion is not intended to be an appraisal of the market value of the property, and that if an appraisal is desired, the services of a licensed or certified appraiser should be obtained by a licensee licensed under the Idaho real estate appraisers act, chapter 41 title 54 Idaho Code
