## Clear Capital Quality Assurance Comments Addendum

**Reviewer's Notes** The broker's as-is conclusion reflects the market for the subject. Comps are within a reasonable distance, relatively current, and accurately reflect the subject's defining characteristics. Thus, the as-is conclusion appears to be adequately supported.

The current valuation is coming in lower in value than the most recent duplicate. The reason for the variance is due to market change. In the past year the market has decreased 21% and approximately 11% in the past quarter.
