Comments Regarding Pricing Strategy

Asper the recent MLS the subject has upgrades, so it was completed in good condition The MLS Comments and Photos of all the potential comparable were looked at carefully and only comparable that appear to be in good condition have been selected for use in this report. The subject is a SFR 1 story, containing 1218sqft, 4bed/2bath, which was built in 1964 and is located near school, highway, park, commercial area and retail stores and will not affect the subject. It was necessary to exceed the lot size variance guideline of 25% in an effort to use the best available comparable from within the subject's market area. Comparable with styles dissimilar to the subject (but with similar attributes) were used to provide a basis for the subject's GLA. The difference in bed count due to the neighborhood area is hard to find comparable that is similar to the subject bed count. In delivering final valuation, most weight has been placed on CS2 and CL2 as they are most similar to subject condition and overall structure.
