Comments Regarding Pricing Strategy		
<p>The values were determined by the sold comparables using the following weights: S1: 20%, S2: 20% & S3: 60%. The active listings were not weighted in the determination of the subject's fair market value. There is an under-supply of comparables listings in the local market. As a result, the broker had to expand on some guidelines to find sufficient comps for this report. NOTE: The three active listings in this report are fairly solid in terms of characteristics, updating and proximity. The issue is, however, that they may be a bit overpriced for the currently market based on recent sales.</p>		

Clear Capital Quality Assurance Comments Addendum

Reviewer's Notes The broker's as-is conclusion reflects the market for the subject. Comps are within a reasonable distance, relatively current, and accurately reflect the subject's defining characteristics. Thus, the as-is conclusion appears to be adequately supported.
