Comments Regarding Pricing Strategy		
<p>Subject's details taken from prior report. I went back 12 months; out in distance 1 mile I was unable to find any comps which fit the subject's requirements. The ones used are the best possible currently available comps within 2 mile and the adjustments are sufficient for this area to account for the differences in the subject and comps. Limited comparables in the subject area make it necessary to use comparables with variance in substyle, age, 15% gla, bed/bath count. Subject is unique in its lot size. It was necessary to exceed the lot size variance guideline of 30% in an effort to use the best available comps from within the subject's market area. It was necessary to use a comparable listing with a superior in condition due to limited market activity in the subject's area. The subject is located within a reasonable proximity to water body and residential area. Comparables used in this report are from same location and neighborhood. In delivering final valuation, most weight has been placed on CS2 and LC3 as they are most similar to subject condition. Unable to gain access to subject. Property located in a gated community. Address was verified by Tax record.</p>
