| <p>Subject's final value represents a value with normal marketing time and based on the most similar and proximate comps in this report. The subject is in Average condition. The home conforms in respect to style, utility, and overall curbs appeal. The view from the subject property is of similar residential homes. The market is stable with a 12 months' supply of homes available for purchase. The majority of homes on the market are fair market properties. Demand is moderate. The subject was strategically priced mid-market because all homes were from the same/similar subdivisions, and were of similar GLA, age, style, and lot utility. The address was not posted anywhere on the subject, it was verified through tax records, So I uploaded the street sign and neighborhood address photos for the address verification.</p> |                    |                       |
