Comments Regarding Pricing Strategy		
<p>Subject final values represents a value with normal marketing time and based on adjustments of most similar and proximate comps in this report. They are the best indicators of value available. Valuation : The valuation was conducted using the sales comparison approach (GLA and room counts were used as the predominant factors in determining best matching sold and listed comparable). There are limited comps data available in the area and few comparable found in 1 mile radius so I had to expand the search till 2 miles to choose best available comps in the area.</p>		

Clear Capital Quality Assurance Comments Addendum

Reviewer's Notes The broker's as-is conclusion reflects the market for the subject. Comps are within a reasonable distance, relatively current, and accurately reflect the subject's defining characteristics. Thus, the as-is conclusion appears to be adequately supported.
