<b>Comments Regarding Pricing Strategy</b>		
<p>Market in subject area is softening significantly, based on increased dom. Slowed activity to contract has necessitated the decrease in market prices. Search for comps showed a sudden increase in listing comp availability, yet a decrease of recent sold comps. Prices have decreased significantly within the past 4 month period. Shortage of adequate comps within subject area. Search for comps expanded to obtain more recent sold comps: Property Type: Residential; Include Property Subtype: Single Family Residence; Area/District: Southeast, Central Yuba City; Status: Closed (3/27/2022 or after); Living Area: 847 to 1500 (also includes 0 values); Year Built: 1947 year(s) to 1960 year(s). The most emphasis was placed on comps sold within the last 4 months, as market turned within that time. Comps used are the best possible currently available comps within subject city and the adjustments are sufficient for this area to account for the differences in the subject and comps. Adjustments applied to dissimilar features. Current listed properties with reducing prices are the best indicators of the current market activity. Search for more comparable properties exhausted; no better available comparable properties exist.</p>		

## Clear Capital Quality Assurance Comments Addendum
