Comments Regarding Pricing Strategy		
<p>Based on exterior observation, the subject appears to be in average condition. I have searched a distance up to 1 mile GLA +/-20% similar lot size up to 6 months back. There were limited comparables available, therefore I had to exceed guideline parameters. Due to limited comps in the area, comps were used despite not bracketing the bed/bath count as they are still considered to be reliable comparables. Active comps were used without bracketing the subject GLA, as there were limited comps in the neighborhood. Subject view is unique. In delivering final valuation, most weight has been placed on CS2 and LC3 as they are most similar to subject condition and overall structure.</p>		

Clear Capital Quality Assurance Comments Addendum

Reviewer's Notes The broker's as-is conclusion reflects the market for the subject. Comps are within a reasonable distance, relatively current, and accurately reflect the subject's defining characteristics. Thus, the as-is conclusion appears to be adequately supported.
