Summary of Sales Comparison Approach .An investigation of the market indicated the comparables utilized to be the most recent, similar and proximate to the subject property. Data was collected from a variety of sources including but not limited to, multiple listing systems, tax assessors records, local real estate brokers and various public records. All sales comparables are considered the best possible similar sales in the neighborhood.

Indicated Value by Sales Comparison Approach \$ 1,225,000

Indicated Value by: Sales Comparison Approach \$ 1,225,000 Cost Approach (if developed) \$ 1,233,750 Income Approach (if developed) \$

The direct sales comparison approach best reflects the actions of buyers/sellers, and is most relied upon. A majority of the homes in this neighborhood are owner occuppies. Income approach and the cost approach offer less data and are deemed less reliable for the purpose of this appraisal. ears.

RECONCILIATION

This appraisal is made "as is", subject to completion per plans and specifications on the basis of a hypothetical condition that the improvements have been completed, subject to the following repairs or alterations on the basis of a hypothetical condition that the repairs or alterations have been completed, or subject to the following required inspection based on the extraordinary assumption that the condition or deficiency does not require alteration or repair. This is an as is appraisal, no conditions. This appraisal is signed with a digital signature that is protected by software password.

Based on a visual inspection of the exterior areas of the subject property from at least the street, defined scope of work, statement of assumptions and limiting conditions, and appraiser's certification, my (our) opinion of the market value, as defined, of the real property that is the subject of this report is \$ 1,225,000 , as of 09/26/2022 , which is the date of inspection and the effective date of this appraisal.

ADDITIONAL COMMENTS

Additional comments:

ANSI Declaration: two story detached single family home with 2,415 above-grade finished square feet and 0 below square feet. The subject was measured to 1/10th of a foot.

This appraisal is not a home inspection report and should not be relied upon to report the condition of the subject property being appraised. The subjects electrical, plumbing, roof and foundation were not inspected and the appraiser offers no opinion of their condition. The appraiser is not an expert in these fields. It is assumed there is no structural defects hidden by the floor or walls or any other hidden or unapparent conditions of the property. It is also assumed that all mechanical equipment, appliances, and electrical components are in average to good working order. If the client has any questions regarding these items it is the clients responsibility to order the appropriate inspection. The appraiser does not have the skill or expertise to conduct such inspections and assumes no responsibility for these items.

The subject soil and landscaping was not inspected by the appraiser for potential dangers such as hazardous material of landslide/slippage potential. The appraiser is not an expert in this field and offers no opinion. It is the clients responsibility to order the appropriate inspection for these items.

The appraisal is not to be used by any party for insurance purposes.

This report form is designed to report an appraisal of a one-unit property or a one-unit property with an accessory unit; including a unit in a planned unit development (PUD). This report form is not designed to report an appraisal of a manufactured home or a unit in a condominium or cooperative project.

This appraisal report is subject to the following scope of work, intended use, intended user, definition of market value, statement of assumptions and limiting conditions, and certifications. Modifications, additions, or deletions to the intended use, intended user, definition of market value, or assumptions and limiting conditions are not permitted. The appraiser may expand the scope of work to include any additional research or analysis necessary based on the complexity of this appraisal assignment. Modifications or deletions to the certifications are also not permitted. However, additional certifications that do not constitute material alterations to this appraisal report, such as those required by law or those related to the appraiser's continuing education or membership in an appraisal organization, are permitted.

SCOPE OF WORK: The scope of work for this appraisal is defined by the complexity of this appraisal assignment and the reporting requirements of this appraisal report form, including the following definition of market value, statement of assumptions and limiting conditions, and certifications. The appraiser must, at a minimum: (1) perform a visual inspection of the exterior areas of the subject property from at least the street, (2) inspect the neighborhood, (3) inspect each of the comparable sales from at least the street, (4) research, verify, and analyze data from reliable public and/or private sources, and (5) report his or her analysis, opinions, and conclusions in this appraisal report.

The appraiser must be able to obtain adequate information about the physical characteristics (including, but not limited to, condition, room count, gross living area, etc.) of the subject property from the exterior-only inspection and reliable public and/or private sources to perform this appraisal. The appraiser should use the same type of data sources that he or she uses for comparable sales such as, but not limited to, multiple listing services, tax and assessment records, prior inspections, appraisal files, information provided by the property owner, etc.

INTENDED USE: The intended use of this appraisal report is for the lender/client to evaluate the property that is the subject of this appraisal for a mortgage finance transaction.

INTENDED USER: The intended user of this appraisal report is the lender/client.

DEFINITION OF MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he or she considers his or her own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U. S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale.

*Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgment.

STATEMENT OF ASSUMPTIONS AND LIMITING CONDITIONS: The appraiser's certification in this report is subject to the following assumptions and limiting conditions:

1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it, except for information that he or she became aware of during the research involved in performing this appraisal. The appraiser assumes that the title is good and marketable and will not render any opinions about the title.
2. The appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in this appraisal report whether any portion of the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.
3. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand, or as otherwise required by law.
4. The appraiser has noted in this appraisal report any adverse conditions (such as needed repairs, deterioration, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property or that he or she became aware of during the research involved in performing this appraisal. Unless otherwise stated in this appraisal report, the appraiser has no knowledge of any hidden or unapparent physical deficiencies or adverse conditions of the property (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) that would make the property less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, this appraisal report must not be considered as an environmental assessment of the property.
5. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that the completion, repairs, or alterations of the subject property will be performed in a professional manner.

APPRAISER'S CERTIFICATION: The Appraiser certifies and agrees that:

1. I have, at a minimum, developed and reported this appraisal in accordance with the scope of work requirements stated in this appraisal report.
2. I performed a visual inspection of the exterior areas of the subject property from at least the street. I reported the condition of the improvements in factual, specific terms. I identified and reported the physical deficiencies that could affect the livability, soundness, or structural integrity of the property.
3. I performed this appraisal in accordance with the requirements of the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.
4. I developed my opinion of the market value of the real property that is the subject of this report based on the sales comparison approach to value. I have adequate comparable market data to develop a reliable sales comparison approach for this appraisal assignment. I further certify that I considered the cost and income approaches to value but did not develop them, unless otherwise indicated in this report.
5. I researched, verified, analyzed, and reported on any current agreement for sale for the subject property, any offering for sale of the subject property in the twelve months prior to the effective date of this appraisal, and the prior sales of the subject property for a minimum of three years prior to the effective date of this appraisal, unless otherwise indicated in this report.
6. I researched, verified, analyzed, and reported on the prior sales of the comparable sales for a minimum of one year prior to the date of sale of the comparable sale, unless otherwise indicated in this report.
7. I selected and used comparable sales that are locationally, physically, and functionally the most similar to the subject property.
8. I have not used comparable sales that were the result of combining a land sale with the contract purchase price of a home that has been built or will be built on the land.
9. I have reported adjustments to the comparable sales that reflect the market's reaction to the differences between the subject property and the comparable sales.
10. I verified, from a disinterested source, all information in this report that was provided by parties who have a financial interest in the sale or financing of the subject property.
11. I have knowledge and experience in appraising this type of property in this market area.
12. I am aware of, and have access to, the necessary and appropriate public and private data sources, such as multiple listing services, tax assessment records, public land records and other such data sources for the area in which the property is located.
13. I obtained the information, estimates, and opinions furnished by other parties and expressed in this appraisal report from reliable sources that I believe to be true and correct.
14. I have taken into consideration the factors that have an impact on value with respect to the subject neighborhood, subject property, and the proximity of the subject property to adverse influences in the development of my opinion of market value. I have noted in this appraisal report any adverse conditions (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) observed during the inspection of the subject property or that I became aware of during the research involved in performing this appraisal. I have considered these adverse conditions in my analysis of the property value, and have reported on the effect of the conditions on the value and marketability of the subject property.
15. I have not knowingly withheld any significant information from this appraisal report and, to the best of my knowledge, all statements and information in this appraisal report are true and correct.
16. I stated in this appraisal report my own personal, unbiased, and professional analysis, opinions, and conclusions, which are subject only to the assumptions and limiting conditions in this appraisal report.
17. I have no present or prospective interest in the property that is the subject of this report, and I have no present or prospective personal interest or bias with respect to the participants in the transaction. I did not base, either partially or completely, my analysis and/or opinion of market value in this appraisal report on the race, color, religion, sex, age, marital status, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property or of the present owners or occupants of the properties in the vicinity of the subject property or on any other basis prohibited by law.
18. My employment and/or compensation for performing this appraisal or any future or anticipated appraisals was not conditioned on any agreement or understanding, written or otherwise, that I would report (or present analysis supporting) a predetermined specific value, a predetermined minimum value, a range or direction in value, a value that favors the cause of any party, or the attainment of a specific result or occurrence of a specific subsequent event (such as approval of a pending mortgage loan application).
19. I personally prepared all conclusions and opinions about the real estate that were set forth in this appraisal report. If I relied on significant real property appraisal assistance from any individual or individuals in the performance of this appraisal or the preparation of this appraisal report, I have named such individual(s) and disclosed the specific tasks performed in this appraisal report. I certify that any individual so named is qualified to perform the tasks. I have not authorized anyone to make a change to any item in this appraisal report; therefore, any change made to this appraisal is unauthorized and I will take no responsibility for it.

Market Conditions Addendum to the Appraisal Report

51413
File No. 33339502

The purpose of this addendum is to provide the lender/client with a clear and accurate understanding of the market trends and conditions prevalent in the subject neighborhood. This is a required addendum for all appraisal reports with an effective date on or after April 1, 2009.

Property Address **26696 Baronet** City **Mission Viejo** State **CA** ZIP Code **92692**

Borrower **Redwood Holding**

Instructions: The appraiser must use the information required on this form as the basis for his/her conclusions, and must provide support for those conclusions, regarding housing trends and overall market conditions as reported in the Neighborhood section of the appraisal report form. The appraiser must fill in all the information to the extent it is available and reliable and must provide analysis as indicated below. If any required data is unavailable or is considered unreliable, the appraiser must provide an explanation. It is recognized that not all data sources will be able to provide data for the shaded areas below; if it is available, however, the appraiser must include the data in the analysis. If data sources provide the required information as an average instead of the median, the appraiser should report the available figure and identify it as an average. Sales and listings must be properties that compete with the subject property, determined by applying the criteria that would be used by a prospective buyer of the subject property. The appraiser must explain any anomalies in the data, such as seasonal markets, new construction, foreclosures, etc.

Explain in detail the seller concessions trends for the past 12 months (e.g., seller contributions increased from 3% to 5%, increasing use of buydowns, closing costs, condo fees, options, etc.). **An analysis was performed on 189 competing sales over the past 12 months. For those sales, a total of 20.6% were reported to have seller concessions. This analysis shows a change of +5% per month.**

Are foreclosure sales (REO sales) a factor in the market? Yes No If yes, explain (including the trends in listings and sales of foreclosed properties).

An analysis was performed on 189 competing sales over the past 12 months. For those sales, a total of 0.5% were reported to be REO.

Cite data sources for above information. **Information reported in the CRMLS system (using an effective date of 09/26/2022) was utilized to arrive at the results noted on this addendum. Any percent change results noted in these comments are based on simple regression.**

Summarize the above information as support for your conclusions in the Neighborhood section of the appraisal report form. If you used any additional information, such as an analysis of pending sales and/or expired and withdrawn listings, to formulate your conclusions, provide both an explanation and support for your conclusions.

An analysis was performed on 189 competing sales over the past 12 months. The sales within this group had a median sale price of \$1,149,900. This analysis shows a change of +1.4% per month. Based on all sales in this same group, there is a 1.9 month supply. This analysis shows a change of +23.9% per month. These sales had a median DOM of 11. This analysis shows a change of +1.4% per month. The data for this analysis consist of single family residences, between 1600 to 2475 sq ft, with 2 to 35 bedrooms, from the subjects zip code. The data above supports a 7% date of sale adjustment for homes that closed over 60 days from the date of the report.

If the subject is a unit in a condominium or cooperative project, complete the following:

Project Name:

Subject Project Data	Prior 7-12 Months	Prior 4-6 Months	Current - 3 Months	Overall Trend		
Total # of Comparable Sales (Settled)				<input type="checkbox"/> Increasing	<input type="checkbox"/> Stable	<input type="checkbox"/> Declining
Absorption Rate (Total Sales/Months)				<input type="checkbox"/> Increasing	<input type="checkbox"/> Stable	<input type="checkbox"/> Declining
Total # of Active Comparable Listings				<input type="checkbox"/> Declining	<input type="checkbox"/> Stable	<input type="checkbox"/> Increasing
Months of Unit Supply (Total Listings/Ab.Rate)				<input type="checkbox"/> Declining	<input type="checkbox"/> Stable	<input type="checkbox"/> Increasing

Are foreclosure sales (REO sales) a factor in the project? Yes No If yes, indicate the number of REO listings and explain the trends in listings and sales of foreclosed properties.

Summarize the above trends and address the impact on the subject unit and project.

Supplemental Addendum

File No. 33339502

Borrower	Redwood Holding						
Property Address	26696 Baronet						
City	Mission Viejo	County	Orange	State	CA	Zip Code	92692
Lender/Client	Bay Equity LLC						

Purpose and function: The purpose of the appraisal is to estimate the market value of the subject property as defined here in. The function of the appraisal is to assist an institutional lender in evaluating the subject property as security for lending purposes in a mortgage transaction.

Definition Of Market Value:

The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale at a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he considers his own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale.

The Dictionary of Real Estate Appraisal: *Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparables property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market reaction to the financing or concessions based on the appraiser's judgment.

Personal Property:

Personal property is identifiable, portable, and tangible objects which are considered by the general public as being personal (i.e. all property that is not classified as real estate). Any personal property involved in the transaction has been excluded from the valuation of the real property. Fixtures or intangible items are not included in the appraisal or estimate of market value; therefore, these items do not affect the market value of the real property.

Approaches To Value:

Three approaches to value that are typically considered in the appraisal of real property are the Cost, Sales Comparison and Income Approach.

The Cost Approach is generally viable for single family residential valuation when properly used, and lends secondary support in the appraisal process. A major contribution of the Cost Approach is a supported land value for the subject and comparable sites. This value can also be established by market analysis, extraction or allocation by abstraction, for estimating the subject and comparable site values.

The replacement cost new of the improvements and depreciated using one or more of the following sources: Marshall & Swift Residential Cost Handbook, local contractors bids, depreciation tables, age to life depreciation techniques or modifications thereof, and/or market extracted depreciation rates. The cost approach is included in this valuation.

REPORT TYPE

This real property appraisal report has been prepared under the Uniform Standards of Professional Appraisal Practice option entitled "Appraisal Report".

SCOPE OF WORK

Subject Property Identification:

This real property appraisal report has been prepared under the Uniform Standards of Professional Appraisal Practice option entitled "Appraisal Report".

Sources of Information:

The appraisal is based on the information gathered from public records; viewing of the subject property, neighborhood and comparable properties; and other sources specifically identified in this report. When conflicting information has been discovered, the sources deemed most reliable have been used.

At the request of the client, this appraisal report has been prepared in compliance with the Uniform Appraisal Dataset (UAD) from Fannie Mae and Freddie Mac. The UAD requires the appraiser to use standardized responses that include specific formats, definitions, abbreviations, and acronyms. The appraiser attempted to obtain an adequate amount of information in the normal course of business regarding the subject and comparable properties. Some of the standardized responses required by the UAD, especially those in which the appraiser has not had the opportunity to verify personally or measure, could mistakenly imply greater precision and reliability in the data than is factually correct or typical in the normal course of business. Examples include condition and quality ratings as well as comparable sales and listing data. Not every element of the subject property was viewable and comparable property data was generally obtained from third-party sources. Consequently, this information should be considered an "estimate" unless otherwise noted by the appraiser.

Additional Appraiser Certification

I have performed NO services, as an appraiser or in any other capacity, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment.

INTENDED USERS and INTENDED USE

The Intended User of this appraisal report is the Lender/Client. The Intended Use is to evaluate the property that is the subject of this appraisal for a mortgage finance transaction, subject to the stated Scope of Work, purpose of the appraisal, reporting requirements of this appraisal report form, and Definition of Market Value. No additional Intended Users are identified by the appraiser.

SUBJECT SECTION

Special Assessments

-The subject has a Special Assessment of \$19.70. This is a yearly assessment that covers, Mwd Water Stdby Chg, Mosq/Fire Ant Assment, & Vector Control Chg. This information is found in the subject's property tax bill. The first page of the report shows \$19 due to the limitations of the form. This is typical for the area and the provided comps offers similar assessments.

Legal Description

-The legal description as shown on pg. 1 of the report is the complete description as found in Realist.

Occupancy/Utilities

Supplemental Addendum

File No. 33339502

Borrower	Redwood Holding						
Property Address	26696 Baronet						
City	Mission Viejo	County	Orange	State	CA	Zip Code	92692
Lender/Client	Bay Equity LLC						

-At the time of inspection the subject property was occupied and all utilities were on and functioning.

Subject Address

-Please note that the subject address utilized in this report is acceptable per the USPS. The formatting of the subject address complies with UAD specifications.

NEIGHBORHOOD - MARKET CONDITIONS

Based on current median prices for properties in the subjects market area, values appear to be increasing over the past 12 months. Additional information found on the 1004MC form..

Predominant Price

-The subject's estimated market value is NOT noted to vary by a difference of 20% or more from that of the neighborhood predominant price. The subject is not felt to be an over Improvement for the market.

SITE SECTION

Site Dimensions

-The subject's actual dimensions are available in the normal course of business. A plat map has been included as supplement in this report. Site adjustment made at \$5 per sq ft rounded, using paid sales analysis.. The site value is above 50%, this is common for the area and little impact of the marketability of the subject property.

Site / Accessibility

-The Subject property is accessible year round in All types conditions. The street use is public and maintained by the city. The streets are maintained in similar fashion to public streets in there area..

Private Well/Septic

The subject does NOT has a private well or septic system. The subject is on the public sewer and water system. This is typical for the area. The subject does have access to public utilities.

ZONING COMPLIANCE

Legal Conforming

The subject property is located within a zoning for which it is considered legal. If the subject were to be destroyed, it could be rebuilt.

HIGHEST AND BEST USE

The appraiser has concluded the highest and best use of the property, as improved, to be its current use. This opinion is supported by the fact that the improved property is physically possible (see improvements description and pictures), is a legal use (see site section/zoning), is financially feasible (see sales comparison approach for sales of similar properties) and is considered to be the maximally productive use (improvements contribute positively to the site and it would not be feasible to change them to a more productive use without substantial capital improvement).

IMPROVEMENTS - ADDITIONAL FEATURES

Gross Living Area (GLA)

-The subject's GLA per public records is 2,041 square feet, mls shows 1,955 sq ft, the appraiser used the mls size of 1,955 for this exterior inspection.

PHYSICAL DEFICIENCIES OR ADVERSE CONDITIONS

This is an exterior appraisal without an interior inspection. The subject does not offers adverse conditions or physical deficiencies.

SALES COMPARISON APPROACH

Comparable Search Parameters

-In my research for comparables, I used the following parameters 6 months from the appraisal date, with a distance of one mile of similar single family residences within 25% of the subject gross living area. The appraiser located 5 similar closed sales and an active listing. Only one active listing is included in the report due to the lack of invertors in the subjects market. Adjustments made through matched pair analysis.

Industry Guidelines

-Industry guidelines suggest comparable sales be within six months, one mile, and have gross adjustments less than 25%, net adjustments less than 15%, and individual adjustments not exceeding 10%. In this appraisal, these guidelines were met.

Comparable Selection / Distance

-The appraiser through research found it NOT necessary to utilize comparables which are outside of the subject's market area.

Quality Adjustments

-Quality adjustments were NOT applied.

Bedroom Adjustments

-It is noted that four of the comparables differ from the subject property in bedroom count. Differences in bedroom count were adjusted at \$10,000.

Basement Adjustments

The subject and the provided comparables do not have basements.

GLA Adjustments

-Adjustments for GLA were made at \$125.00 per square foot and were rounded to the nearest \$500. Adjustments were not made for differences of less than 100 square feet.

-Active Listings have not been adjusted for negotiation and possible closing cost to reflect the typical sales price to list price ratio for the subject's market. The sales to listing price averages is over 100% of the asking price.

-The marketing time noted on page 1 of this report is an average. Some sales will sell in less than average time, while some will take longer. Each sale was researched and while exposed for less time than average for the market was found to meet the definition of Market Value as evidenced by having sales prices similar to those comparables utilized with marketing times within the range on page 1.

Comparable Selection / Design (Style)

-It was necessary to utilize comparables which differ in design from the subject.

RECONCILIATION AND FINAL VALUE CONCLUSION

The value range prior to adjustment is \$1,060,000 to \$1,250,000 not within a 15% range and the adjusted sales range is \$1,161,500 to \$1,324,500, within 15% range.

Comp #1 is a smaller home on the same street as the subject. This three bedroom home does not offer the upgrades found in the subject. This home is on a similar sized lot with a similar pool and spa.

Comp #2 is a smaller home one block from the subject. This three bedroom home is in similar condition with similar upgrades. This home brackets the subjects lot size and year built.

Comp #3 is a smaller home two blocks from the subject. This three bedroom home is in similar condition with similar upgrades, on a similar sized lot, with a similar year built.

Comp #4 is a large home two blocks from the subject. This similar four bedroom home is in similar condition.

Comp #5 is a smaller home one block from the subject. This three bedroom home is in similar condition with similar upgrades.

Comp #6 is an active listing on the same street as the subject. This similar four bedroom home does not offer the upgrades found in the subject.

-While all comparables share many meaningful attributes with the subject property and support the appraised value, Comparables, 2 - 3 were given the most weight in the value conclusion, as similar home from the subject neighborhood..

EXTRA COMMENTS:

COVID-19 has been declared a pandemic and a national state of emergency is in place. Substantial turmoil has occurred in financial markets and due to the developing situation, it is not possible at this time to quantify its long-term or short-term effects on real estate markets or on the subject property. The value opinion contained in this appraisal is based on findings of an analysis of market data available to the appraiser at the time of the assignment

-The AMC registration number is: 1256

Subject Aerial Photo

-An aerial photo of the subject has been provided in this report.

-There IS NOT any non-residential land usage or potential external influences near the subject property.

AIR Compliance Statement

-No employee, director, officer, or agent of the lender, or any other third party acting as joint venture partner, independent contractor, appraisal management company, or partner on behalf of the lender, shall influence or attempt to influence the development, reporting, result, or review of an appraisal through coercion, extortion, collusion, compensation, instruction, inducement, intimidation, bribery, or in any other manner...

I have not been contacted by anyone other than the intended user (lender/client as identified on the first page of the report), borrower, or designated contact to make an appointment to enter the property. Condition Ratings and Definitions

C1

The improvements have been recently constructed and have not been previously occupied. The entire structure and all components are new and the dwelling features no physical depreciation.

Note: Newly constructed improvements that feature recycled or previously used materials and/or components can be considered new dwellings provided that the dwelling is placed on a 100 percent new foundation and the recycled materials and the recycled components have been rehabilitated/remanufactured into like-new condition. Improvements that have not been previously occupied are not considered "new" if they have any significant physical depreciation (that is, newly constructed dwellings that have been vacant for an extended period of time without adequate maintenance or upkeep).

C2

The improvements feature no deferred maintenance, little or no physical depreciation, and require no repairs. Virtually all building components are new or have been recently repaired, refinished, or rehabilitated. All outdated components and finishes have been updated and/or replaced with components that meet current standards. Dwellings in this category are either almost new or have been recently completely renovated and are similar in condition to new construction.

Note: The improvements represent a relatively new property that is well maintained with no deferred maintenance and little or no physical depreciation, or an older property that has been recently completely renovated.

C3

The improvements are well maintained and feature limited physical depreciation due to normal wear and tear. Some components, but not every major building component, may be updated or recently rehabilitated. The structure has been well maintained.

Note: The improvement is in its first-cycle of replacing short-lived building components (appliances, floor coverings, HVAC, etc.) and is being well maintained. Its estimated effective age is less than its actual age. It also may reflect a property in which the majority of short-lived building components have been replaced but not to the level of a complete renovation.

C4

The improvements feature some minor deferred maintenance and physical deterioration due to normal wear and tear. The dwelling has been adequately maintained and requires only minimal repairs to building components/mechanical systems and cosmetic repairs. All major building components have been adequately maintained and are functionally adequate.

Note: The estimated effective age may be close to or equal to its actual age. It reflects a property in which some of the short-lived building components have been replaced, and some short-lived building components are at or near the end of their physical life expectancy; however, they still function adequately. Most minor repairs have been addressed on an ongoing basis resulting in an adequately maintained property.

C5

The improvements feature obvious deferred maintenance and are in need of some significant repairs. Some building components need repairs, rehabilitation, or updating. The functional utility and overall livability is somewhat diminished due to condition, but the dwelling remains useable and functional as a residence.

Note: Some significant repairs are needed to the improvements due to the lack of adequate maintenance. It reflects a property in which many of its short-lived building components are at the end of or have exceeded their physical life expectancy but remain functional.

C6

The improvements have substantial damage or deferred maintenance with deficiencies or defects that are severe enough to affect the safety, soundness, or structural integrity of the improvements. The improvements are in need of substantial repairs and rehabilitation, including many or most major components.

Note: Substantial repairs are needed to the improvements due to the lack of adequate maintenance or property damage. It reflects a property with conditions severe enough to affect the safety, soundness, or structural integrity of the improvements.

Quality Ratings and Definitions

Q1

Dwellings with this quality rating are usually unique structures that are individually designed by an architect for a specified user. Such residences typically are constructed from detailed architectural plans and specifications and feature an exceptionally high level of workmanship and exceptionally high-grade materials throughout the interior and exterior of the structure. The design features exceptionally high-quality exterior refinements and ornamentation, and exceptionally high-quality interior refinements. The workmanship, materials, and finishes throughout the dwelling are of exceptionally high quality.

Q2

Dwellings with this quality rating are often custom designed for construction on an individual property owner's site. However, dwellings in this quality grade are also found in high-quality tract developments featuring residence constructed from individual plans or from highly modified or upgraded plans. The design features detailed, high quality exterior ornamentation, high-quality interior refinements, and detail. The workmanship, materials, and finishes throughout the dwelling are generally of high or very high quality.

UNIFORM APPRAISAL DATASET (UAD) DEFINITIONS ADDENDUM

(Source: Fannie Mae UAD Appendix D: UAD Field-Specific Standardization Requirements)

Quality Ratings and Definitions (continued)

Q3

Dwellings with this quality rating are residences of higher quality built from individual or readily available designer plans in above-standard residential tract developments or on an individual property owner's site. The design includes significant exterior ornamentation and interiors that are well finished. The workmanship exceeds acceptable standards and many materials and finishes throughout the dwelling have been upgraded from "stock" standards.

Q4

Dwellings with this quality rating meet or exceed the requirements of applicable building codes. Standard or modified standard building plans are utilized and the design includes adequate fenestration and some exterior ornamentation and interior refinements. Materials, workmanship, finish, and equipment are of stock or builder grade and may feature some upgrades.

Q5

Dwellings with this quality rating feature economy of construction and basic functionality as main considerations. Such dwellings feature a plain design using readily available or basic floor plans featuring minimal fenestration and basic finishes with minimal exterior ornamentation and limited interior detail. These dwellings meet minimum building codes and are constructed with inexpensive, stock materials with limited refinements and upgrades.

Q6

Dwellings with this quality rating are of basic quality and lower cost; some may not be suitable for year-round occupancy. Such dwellings are often built with simple plans or without plans, often utilizing the lowest quality building materials. Such dwellings are often built or expanded by persons who are professionally unskilled or possess only minimal construction skills. Electrical, plumbing, and other mechanical systems and equipment may be minimal or non-existent. Older dwellings may feature one or more substandard or non-conforming additions to the original structure

Definitions of Not Updated, Updated, and Remodeled

Not Updated

Little or no updating or modernization. This description includes, but is not limited to, new homes.

Residential properties of fifteen years of age or less often reflect an original condition with no updating, if no major components have been replaced or updated. Those over fifteen years of age are also considered not updated if the appliances, fixtures, and finishes are predominantly dated. An area that is 'Not Updated' may still be well maintained and fully functional, and this rating does not necessarily imply deferred maintenance or physical/functional deterioration.

Updated

The area of the home has been modified to meet current market expectations. These modifications are limited in terms of both scope and cost.

An updated area of the home should have an improved look and feel, or functional utility. Changes that constitute updates include refurbishment and/or replacing components to meet existing market expectations. Updates do not include significant alterations to the existing structure.

Remodeled

Significant finish and/or structural changes have been made that increase utility and appeal through complete replacement and/or expansion.

A remodeled area reflects fundamental changes that include multiple alterations. These alterations may include some or all of the following: replacement of a major component (cabinet(s), bathtub, or bathroom tile), relocation of plumbing/gas fixtures/appliances, significant structural alterations (relocating walls, and/or the addition of) square footage). This would include a complete gutting and rebuild.

Explanation of Bathroom Count

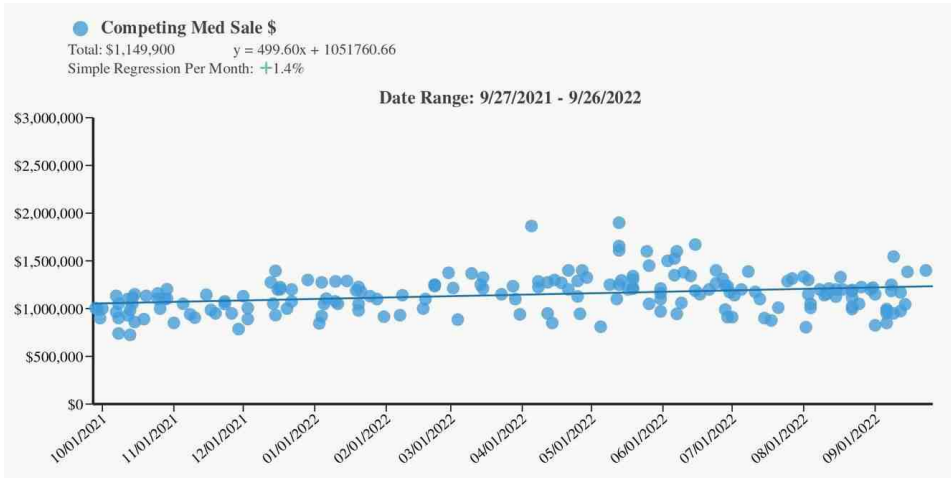

Three-quarter baths are counted as a full bath in all cases. Quarter baths (baths that feature only a toilet) are not included in the bathroom count. The number of full and half baths is reported by separating the two values using a period, where the full bath count is represented to the left of the period and the half bath count is represented to the right of the period.

Example:

3.2 indicates three full baths and two half baths.
