Comments Regarding Pricing Strategy		
<p>I went back 12 months, out in distance 5 miles, and even with relaxing mile to subject search criteria I was unable to find any comps which fit the gross living area, close date and age requirements. Within 4.90 miles and back 12 months I found 6 comps of which I could only use due to the gross living area, close date and age requirements factors. The ones used are the best possible currently available comps within 5 miles and the adjustments are sufficient for this area to account for the differences in the subject and comps. The value as of today is \$250,000. The typical marketing time is 78 days. The subject is within 2 miles of Highway 90-A. In the subject market, home value ranges from \$100,000 to \$410,000. The median home value in the subject neighborhood is \$175,000. The subject is conforming to the neighborhood. There are no comparable listings and closed sales for the last 12 months in the subject same immediate subdivision.</p>
