<b>Comments Regarding Pricing Strategy</b>		
<p>There is a shortage of comp listings that are within 20% of the subject's GLA, while offering a private pool, in a one mile radius. I first expanded the radius up to 2 miles, then allowed for homes without pools in order to find a more average condition home for this area. CL2 and CL3 are in good condition and also offer private pools. A weighted comparable method was used to reconcile the subject's current market value with more weight given to the sold comp most like the subject. A list to sale ratio of 100% is reflected in the suggested list price. The 30-day price is the same as the sale price given that the average time on the market for all homes here is still 30 days. It is trending longer than in previous months when demand was higher.</p>
