Comments Regarding Pricing Strategy		
<p>The subject conforms with the surrounding properties and neighborhood. There were no comps within the subject market area which has attributes similar to the subject which can justify a higher\lower price. The estimated value in my report is based on the comps which best represents the subject market and true market value. The comps were chosen based on their similarity to the subject and they point towards the subject estimated value. Proximity had to be expanded to locate comps in average condition, as most homes nearby are remodelled condition.</p>		

Clear Capital Quality Assurance Comments Addendum

Reviewer's Notes The broker's as-is conclusion reflects the market for the subject. Comps are within a reasonable distance, relatively current, and accurately reflect the subject's defining characteristics. Thus, the as-is conclusion appears to be adequately supported.
