Comments Regarding Pricing Strategy

Considering all the available information my conclusion is most credible supported at the price given for this subject. I have searched a distance up to 0.5 mile GLA +/-20% similar lot size up to 6 months back. There were limited comparable available. Therefore I had to exceed guideline parameters and search up to 2 mile and back 12 Months. Since there were limited comparables available within the subject's market neighborhood, it was necessary to use a sold comparable with a sale date beyond 90 days from the date of this report. Price range was over 20%in difference due to the neighbourhood area hard to find comparable that is similar to subject in condition and criteria. Due to limited comps in the area, listing comps were used despite not bracketing the GLA as they are still considered to be reliable comparables. Comparable(Cs2, CS3) received multiple offers which resulted in an increased final sale price relative to list price. Subject is located near highway, water bodies, park, school, RR track and commercial buildings. Due to limited comparable from same location, it was necessary to use comparables from across the highway and RR track. However, this won't affect the market value. In delivering final valuation, most weight has been placed on CS2 and LC3, as they are most similar to subject condition and overall structure. Subject attributes are from Tax record.. No address was found on property. Based on adjacent homes and external sources, subject photos are accurate.
