Comments Regarding Pricing Strategy		
<p>The subject property is a single family home, which is in overall average condition on the exterior. The exterior of the subject property does not appear to be in need of major repairs. Comps were searched for within a distance of 1.5 Miles and back 12 months in time. Listing Comps were searched for beyond 1 mile due to limited similar listing comps. It was necessary to search beyond 3 months time for sold comps as there were limited recent similar sales in this area. The GLA Tolerance searched for similar comps was +/- 20% of the subject's Sq. Ft. The subject is in average exterior condition and priority was given to locating comps which are in average condition. However, there is a shortage of similar comps, especially properties in average condition, and therefore it was necessary to use two superior condition comps within this report. Inventory is decreasing, and demand is decreasing within the subject's market area. REO/SS are less than 1% of recent sales and listings in this area. The subject backs to a Golf Course, which is not currently being maintained, which is a neutral influence. Sale 2 was included in this report, despite its bedroom count difference, in order to provide a comp with the same site influence. Subject's Pricing: The subject's Sale Price is bracketed within the range of comp values. Similar comps within the subject's market area support a Sale Price for the subject which is higher than the subject's most recent Sales Price.</p>		

Clear Capital Quality Assurance Comments Addendum

Reviewer's Notes The broker's as-is conclusion reflects the market for the subject. Comps are within a reasonable distance, relatively current, and accurately reflect the subject's defining characteristics. Thus, the as-is conclusion appears to be adequately supported.

The current valuation is coming in lower in value than a recent appraisal completed in November 2022. The reason for the value decrease is due to market change. The price per square foot in the area has decreased 18% in the past year.
