#### **Comments Regarding Pricing Strategy**

I went back 6 months, out in distance 0.5 miles, and even with relaxing Lot size and year built search criteria I was unable to find much comparable which fit the GLA requirements. Within 1 miles and back 6 months I found few comparable to which I could only use 3 due to Sq Ft and condition factors. The ones used are the best possible currently available comparable within 6 miles and the adjustments are sufficient for this area to account for the differences in the subject and comparable. Unable to bracket sales with subject's GLA, variance is minimal and does not have an impact on price opinion. Proximity parameters were expanded up to 6.0 miles as there was only very limited comparable available within 3 miles, +/-30% GLA, +/-40% year built, +/-30% lot size, and 12 months back. In order to include comparable to reinforce the subject's GLA and other attributes, the sold comparable search was broadened to 6 months time. Condo with 1 beds and 1.0 baths. The exterior inspection revealed that the subject has been adequately maintained and considered to be in average condition. Property is located near parks, schools, commercial centers, and worship centers. It was necessary to exceed the threshold for age variance of 10 years, GLA variance guideline of 20%, and bath count, to use the best available comparable from within the subject's market. Subject/Comparable garage count is as per MLS/Pictures. Comparable property condition was identified using both MLS comments and interior pictures. The utilized comps are as similar in GLA, Style, and Age as possible. The area is primarily residential. The subject is most similar to Sales comp 2 and Listing comp 1 and is weighted toward these for a potential sales/listing price as they are most similar to the subject out of the comps selected. subject rental value : \$1800
