<b>Comments Regarding Pricing Strategy</b>		
<p>I went back 12 months; out in distance 1 mile I was unable to find any comps which fit the subject's requirements. The ones used are the best possible currently available comps within 1 mile and the adjustments are sufficient for this area to account for the differences in the subject and comps. Limited comparables in the subject area make it necessary to use comparables with variance in age, 15% gla and 30% lot size. It was necessary to use a comparable listing (sold#2, list#1) with a superior in condition due to limited market activity in the subject's area. Since there were limited sold comparables available it was necessary to exceed sold date greater than six months and use sold comparables that exceed 120 days of pending date. At the time of sale the sold comparable #3 property may have had multiple offers or a concession was given and not noted. The BPO report must take these sales into consideration in terms of comparable selection. The subject is located within a reasonable proximity to water body, and commercial buildings. Comparables used in this report are from same location and neighborhood. In delivering final valuation, most weight has been placed on CS1 and LC3 as they are most similar to subject condition. Subject's details taken from tax record.</p>
