Comments Regarding Pricing Strategy		
<p>Subject is a SFR home. To maximize accuracy of initial valuation, it was vital to extend the time span of closed sales past the great 3 month window to discover comparable that required the least net adjustment. In an effort to better bracket the feature set of the subject it was necessary to exceed the bed/bath count, condition and lot size guideline. The subject is located near major roads, school, worship places and commercial area. This will not affect subject value and marketability as the comparables used in this report are also from similar location and neighborhood. To reach a value conclusion, most weight was placed on CS1 and LC1, as they are most similar to subject condition and overall structure. Subject details are from Tax record.</p>
