Comments Regarding Pricing Strategy		
<p>I went back 12 months; out in distance 1 mile I was unable to find any comps which fit the subject's requirements. The ones used are the best possible currently available comps within 4 mile and the adjustments are sufficient for this area to account for the differences in the subject and comps. Limited comparables in the subject area make it necessary to use comparables with variance in 15% gla, bed/bath count, basement type and 30% lot size. Since there were limited sold comparables available it was necessary to exceed sold date greater than three months. The subject is located within a reasonable proximity to highway. Due to lack of comparable in the subject's same side it was necessary to exceed highway. But the location feature not affects the marketability of the property. In delivering final valuation, most weight has been placed on CS2 and LC3 as they are most similar to subject condition. Subject's details taken from tax record.</p>		

Clear Capital Quality Assurance Comments Addendum

Reviewer's Notes The broker's as-is conclusion reflects the market for the subject. Comps are within a reasonable distance, relatively current, and accurately reflect the subject's defining characteristics. Thus, the as-is conclusion appears to be adequately supported.
