Comments Regarding Pricing Strategy		
<p>The subject property is an SFR detached home. The following search parameters were used to obtain comps from MLS: 1587– 1752 sq. ft. of GLA range, within 1 miles radius, and 6 months' time for sold comps. Then I exceeded the closed date to 1 year. The comps that were closest in size, age, style, location, and room count were chosen for this report. Due to limited comparables, the GLA was not bracketed in the list and sold comparables.. Due to limited comparables, the lot size was not bracketed in the list comparables The subject is located near a park, school, busy street, , highway, and commercial area. However, it won't affect the Market value. The lot size tolerance for comps had to be extended in order to locate properties that supported the subject GLA and attributes. Comparables CS1 received multiple offers which resulted in an increased final sale price relative to the list price. In delivering the final valuation, most weight has been placed on CS2and LC2, as they are most similar to the subject condition and overall structure. Subject attributes are from the Tax record.</p>
