#### **Comments Regarding Pricing Strategy**

The subject property is a 1 story 1384 square feet single-family home was built in 1979 containing 3 bedrooms and 3 bathrooms. The exterior inspection revealed that the subject has been adequately maintained and considered to be on average marketable condition. The difference in style due to the neighborhood area hard to find comparable that is similar to the subject in condition and criteria. It was necessary to exceed the lot size variance guideline of 25% in an effort to use the best available comparable from within the subject's market area. It was necessary to exceed the proximity to the subject guideline of 1 mile in an effort to use the best available comparable from within the subject's market area. Subject and comparables are located near to park and high way. It does not cause any negative or adverse effect on the market value. Few comps crossed major road and highways but have no impact on the subject's location and pricing. In delivering final valuation, most weight has been placed on CS2 and CL1 as they are most similar to subject condition and overall structure. Subject and comparable garage counts are verified from the Tax and MLS pictures.
