Comments Regarding Pricing Strategy

Subject property is a SFR detached home located in Jacksonville city. Comp search parameters for this report were GLA range of 1494 to 2240 Sq. Ft., within 1 mile radius, 1959 to 1999 Year built, 6 month sale date time. Sold comp search was extended up to 12 Months in order to locate comps to support the subject's GLA and other attributes. Since there were limited comparable available within subject's market neighborhood, it was necessary to use a sold comparable with a sale date beyond 3 months from the date of this report. Lot size tolerances for comps had to be expanded in order to locate comps that were supportive of the subject GLA and other attributes. To stay in closer proximity need to use good condition comparable. In order to support the subject's GLA, it was necessary to use comparable that differed from the subject's style. Since there were limited comparable available within subject's market neighborhood, it was necessary to use a comparable with variance in bed count. Subject is located near busy road, hospital, school, highway, water bodies, worship area and commercial amenities. Due to limited comparable from same location, it was necessary to use comparables from across the highway. However, this won't affect the market value. The comparables selected were considered to be the best available. In finalizing valuation, most weight has been placed on CS2 and LC1 since they are most similar to subject condition and overall structure. Subject attributes are taken from Tax record. Subject garage count is verified using picture. Comparables garage count is verified using picture. Comparable (CS1,CS2) received multiple offers which resulted in an increased final sale price relative to list price.

Clear Capital Quality Assurance Comments Addendum

Reviewer's The broker's as-is conclusion reflects the market for the subject. Comps are within a reasonable distance, relatively current, and accurately reflect
Notes the subject's defining characteristics. Thus, the as-is conclusion appears to be adequately supported.
