Comments Regarding Pricing Strategy		
<p>Subject's details taken from prior report. I went back 12 months; out in distance 1 mile I was unable to find any comps which fit the subject's requirements. The ones used are the best possible currently available comps within 5 mile and the adjustments are sufficient for this area to account for the differences in the subject and comps. Since there were limited active comparable available within subject's market neighborhood, it was necessary to expand radius up to 5 mile. Limited comparables in the subject area make it necessary to use comparables with variance in 15% gla, bed/bath count, basement type and 20% lot size. It was necessary to use a comparable listing with a superior in condition due to limited market activity in the subject's area. At the time of sale the sold comparable #1, #3 properties may have had multiple offers or a concession was given and not noted. The BPO report must take these sales into consideration in terms of comparable selection. Since there were limited sold comparables available it was necessary to exceed sold date greater than three months. The subject is located within a reasonable proximity to residential area, parks and other non-residential properties. Due to lack of comparable in the subject's same side it was necessary to exceed highway. But the location feature not affects the marketability of the property. In delivering final valuation, most weight has been placed on CS2 and LC3 as they are most similar to subject condition.</p>
