<b>Comments Regarding Pricing Strategy</b>		
<p>Pricing suggestion came about from analyzing the most current comps which are located as close to the subject as possible and are as close as feasible in square footage, location, condition, style, and acreage with the subject property. I have searched a distance up to 0.5 miles, GLA +/- 20% sqft, lot size +/-30% sq ft, age +/- 20%yrs, and up to 3 months in time. This was expanded to up to 12 months in time, proximity up to 3 mile, gla, age, and variance in bed bath count and style due to the lack of similar homes. Due to limited comps, it is necessary to include those properties that may exceed the distance. It was also necessary to use comparables with a wider price range. Due to the availability of limited comps in the similar location of the subject, it was necessary to use dissimilar bed/bath count.. Subject is near freeway/highway, school, electric pole, and commercial buildings ; However it does not affect market value of the subject property. It was also necessary to use a comparable from the other side of the highway. Comps even though they are divided by the highway, the division does not have an impact on the value.</p>
