Comments Regarding Pricing Strategy		
<p>The subject is an SFR-type property and appears to be in average condition. The exterior inspection revealed that the subject has been adequately maintained and considered to be in average marketable condition. Since there were limited comparables available within the subject's market neighborhood, it was necessary to use sold comparables with a sale date beyond 180 days from the date of this report. I have searched a distance up to 1 mile, GLA +/-20%, year built +/- 20, and up to 6 months back. To get enough comparables, it was necessary to exceed the condition, GLA, lot size, bed/bath count, closed date, and proximity up to 4.30 miles. Due to limited comps, it was hard to bracket the GLA for active. In delivering the final valuation, the most weight has been placed on CS2 and LC1 as they are most similar to the subject condition and overall structure. The subject is closer to busy roads, and commercial buildings and it will not affect the subject value and marketability. The details were taken from the tax record. Few comps have crossed the highway and however, there is no change in subject value and marketability.</p>		

Clear Capital Quality Assurance Comments Addendum

Reviewer's Notes The broker's as-is conclusion reflects the market for the subject. Comps are within a reasonable distance, relatively current, and accurately reflect the subject's defining characteristics. Thus, the as-is conclusion appears to be adequately supported.
